1	PROCEEDINGS
2	
3	GUY DANSIE: We'll go ahead and start
4	then. On behalf of Jay, I'd like to welcome
5	everybody here and thank you guys. It's good to see
6	you guys. I haven't seen you guys for a while.
7	And maybe we need to just go around and
8	introduce ourselves quickly for the reporter so that
9	we have that on the record. Will you start, Dean?
10	DEAN YORK: Dean York, Provo City Fire
11	Department representing the paramedics.
12	TERESA BRUNT: I'm Teresa Brunt. I'm here
13	representing the Emergency Nurses Association.
14	JEAN LUNDQUIST: Jean Lundquist
15	representing the trauma centers.
16	GAY BROGDON: Gay Brogdon with the Bureau,
17	administrative.
18	DAN CAMP: Dan Camp with the Bureau.
19	LAUARA SNYDER: Lauara Snyder with Private
20	Ambulance Providers, Wendover Ambulance.
21	JIM HANSEN: Jim Hansen with the Bureau.
22	GUY DANSIE: And I'm Guy Dansie. I'm with
23	the Bureau as well.
24	And then on the phone we have maybe
25	we'll start with Regina.

1	REGINA NELSON: Yep. This is Regina from
2	the Tooele County Sheriff's Office representing
3	emergency medical dispatch.
4	GUY DANSIE: Okay. Thank you. And Jeff?
5	JEFFRY GRUNOW: Jeff Grunow up at Weber
6	State University representing the educators.
7	GUY DANSIE: I'm trying to remember who
8	the third party was on the phone. Anybody else on
9	the phone?
10	GAY BROGDON: Don and Jim Guynn are
11	supposed to be on.
12	GUY DANSIE: Okay. Yeah, we have two more
13	that we anticipate will call in. So when they do we
14	will
15	Whoop, there's one of them. Who just
16	called in?
17	RANDY WILDEN: Randy Wilden.
18	GUY DANSIE: Okay, Randy. And we're just
19	doing introductions, so can you tell us who you are
20	and whom you represent?
21	RANDY WILDEN: Randy Wilden for the Tooele
22	Fire Department representing the rural EMS fire.
23	GUY DANSIE: So we were just talking, as
24	we were setting up the meeting, a little bit about
25	rule updates and legislation. We're kind of waiting

1	for Jay Downs. He's on his way. He texted me a
2	minute ago, and he said he's almost here.
3	So let me just go ahead and talk about
4	some of the things we're doing. With the rules, I
5	sent out three different documents over the Christmas
6	break that we forwarded to the EMS committee. One of
7	those was about the mutual aid, having that when you
8	do your licensure, that would automatically be
9	expected of you unless you opted out for some reason.
10	And that passed through the committee, and they were
11	good with that.
12	Also we talked a little bit about I'm
13	drawing blanks here. What were the other things?
14	JIM HANSEN: EPI.
15	GUY DANSIE: No, not the EPI. We talked
16	about I can't remember honestly.
17	JIM HANSEN: Blood draw.
18	GUY DANSIE: Blood draw, that was it.
19	Blood draw. Thanks, I'm getting too old for this.
20	We talked about blood draws and migrating
21	the language that the Utah Department of Health
22	Laboratory has for that, moving that into our
23	certification piece of Rule R426-5. And that
24	language was put in there.
25	And then there was some clean-up language

1	on the this is the part I was trying to
2	remember on the background, screening, peer-review
3	board and the complaint, the compliance complaint and
4	enforcement unit. Some of the language was for
5	the most part was described as "the department shall
6	do this and the department shall do that." And they
7	refined it so that it was the CCU or the Bureau,
8	depending on what the type of function it was. So
9	just some minor like refining of the language there.
10	Currently I'm waiting to they're going
11	to do a repeal of the blood draw permitting on the
12	lab rule at the same time we do our adoption of their
13	language. So it has to be done that same day. So
14	we'll do that one step. Once that takes place, then
15	I'll add the other language for the CCU, the
16	peer-review board and so forth.
17	JIM HANSEN: I do have a question on that.
18	GUY DANSIE: Jay Downs. Jay is in the
19	room, for those on the phone.
20	JIM HANSEN: Okay. Jim Hansen. My
21	question is are we going to be actually doing the
22	certify?
23	GUY DANSIE: The permitting?
24	JIM HANSEN: The permitting, yeah.
25	GUY DANSIE: That is to be determined.

1	Currently the lab has been doing that. I think that
2	was Paul's intention is having us do that. And what
3	it really does is what we do is look at training,
4	make sure they're trained properly. These are folks
5	that are not certified as paramedics or AEMTs who
6	would be doing blood draws. They might be like a
7	phlebotomist. And we issue a permit to them if
8	they're trained properly, and that permit allows the
9	highway patrol or law enforcement to use them for DUI
10	suspects and so forth. We've been doing that
11	already, but we're just that process is
12	JEAN LUNDQUIST: Is there something in
13	there that defines it properly?
14	GUY DANSIE: Yeah, it's in the language.
15	I can't quote you. I can give you the language after
16	the meeting. And it's in the draft actually I
17	believe on there. The blood draw is in the packet
18	you have.
19	DEAN YORK: Yeah, it is.
20	LAUARA SNYDER: Does that say that law
21	enforcement can like hire other people to come in and
22	do their blood draws?
23	GUY DANSIE: Yes, or if they have an
24	officer, they can train an officer.
25	JEAN LUNDQUIST: And your forensic draws,

1	is that what you're talking about?
2	GUY DANSIE: Yes, yes. For instance, they
3	could train one of the troopers or a law enforcement
4	officer. They might not be certified as an EMT or a
5	paramedic, but they could be trained to do the blood
6	draw and permitted. And then that officer would be
7	legal and able to draw the blood.
8	LAUARA SNYDER: Isn't that something
9	that phlebotomy, isn't that under licensing, under
10	the Department of Health? Because there's a whole
11	different explanation for that.
12	GUY DANSIE: Yes. Yeah, there's another
13	title that refers to this. But it also allows our
14	certified individuals to do it as well. But we can
15	as a department issue a permit for that based on
16	criteria if they meet certain training criteria.
17	LAUARA SNYDER: Because in the past, as
18	you say, we did it through whom? I mean who
19	GUY DANSIE: The lab.
20	LAUARA SNYDER: The labs. And it's just a
21	fee. And if you were an advanced EMT or intermediate
22	or whatever, they assumed that you had the training.
23	GUY DANSIE: Correct.
24	LAUARA SNYDER: And that's all the
25	training that's required is the IV stuff and blood

1	draws that we get in our EMS advanced classes.
2	GUY DANSIE: Right.
3	LAUARA SNYDER: But if you're starting to
4	train someone totally out of EMS, coming in off the
5	street, that's a whole different story.
6	GUY DANSIE: Correct.
7	LAUARA SNYDER: It's like you have to
8	create another type of everything to and I'm not
9	sure I'd even
10	GUY DANSIE: Well, we wouldn't do the
11	training in-house. We would that would be
12	something they would have to get from a program or
13	somewhere else and then bring their credentials to us
14	and then we'd issue the permit. And the language is
15	in there. I honestly am not an expert on this part
16	of it.
17	LAUARA SNYDER: Does the lab not want to
18	do it any more?
19	GUY DANSIE: No, it was they had a
20	five-year rule review, which is a requirement under
21	the administrative rules, that we review the rules
22	every five years. And during that process, our
23	executive director and the rules people felt it would
24	be a better fit to move it into our rule, to renumber
25	it and put it in our rule. So it was a legal

decision on their end.

JIM HANSEN: Let it be said, let it be done.

GUY DANSIE: Yeah. Honestly, we're not trying to change the process. We're just moving the language into our rule at this point. If the process does change, we'll bring it back and bring it through this process and the committee.

Okay. And then the other things legislatively, there are a couple of bills right now about air ambulance, just so you guys have a heads-up. One of them was a declaration that the State feels like the State needs more -- they would like to see the Airline Deregulation Act amended by the federal government, by Congress. And that's kind of a big thing I think throughout the states. are several states that are pushing for federal change in the Airline Deregulation Act. Currently the states are not allowed to do anything with the rates or routes or you know -- or anything to do with the flight aspects. And that's one reason why they're allowed to have a license for the whole state, anybody that has one, because the states are not allowed to determine where they can and can't fly.

1	So that's a concern that many states have
2	had, and our state is included in that group. And
3	we're sending a declaration to Congress saying that
4	we feel like there ought to be a little more state
5	oversight in some of those areas, and they want them
6	to amend the Act. So there's that.
7	DEAN YORK: Guy, is that does that
8	include also pricing then? So not only licensing
9	for, but also
10	GUY DANSIE: That brings me to the second
11	bill. There's another bill that's being proposed
12	that would make not controlling the pricing, but
13	requiring that we post the prices that different
14	carriers have charged and the numbers of flights,
15	transports that they have had. So there would be
16	more transparency in seeing who is doing what in the
17	state to help the consumer have a little more
18	education on who their provider may or may not be.
19	Does that make sense?
20	DEAN YORK: It does. But in emergency
21	situations, I don't know if anyone is going to
22	compare prices.
23	GUY DANSIE: Right. Well, that's the
24	problem they've had. And this is the issue, we
25	have in Utah we haven't had a large problem with

1	price gouging. But in other states, one carrier
2	might charge 20,000 and another might charge 80 for
3	the same flight. And as a consumer, the Airline
4	Deregulation Act allows you make the choice who your
5	carrier is. But that person really can't choose in
6	those situations. It's the responders who make the
7	decision. The intent of this bill is so that the
8	responders, dispatch, highway patrol, whoever, has an
9	understanding of kind of a general idea on who is
10	charging what. So if two carriers could serve the
11	same patient, they would pick maybe the cheaper
12	carrier or allow the patient to have more
13	choice/flexibility in knowing that the carriers have
14	different prices for the same thing.
15	JIM HANSEN: I think it's important to
16	also recognize that most of their flights are not
17	emergency.
18	GUY DANSIE: Yeah. These are a lot of
19	these are inner-facility. They're between hospitals.
20	JIM HANSEN: So there is time to
21	JEAN LUNDQUIST: I don't know historically
22	that they ever, ever ask the patient.
23	GUY DANSIE: Probably not.
24	JEAN LUNDQUIST: Yeah.
25	GUY DANSIE: But actually a patient does
	l l

1	have the right to decide. But a lot of times the
2	patient is not conscious or not in the state of mind
3	to make that type of decision.
4	DEAN YORK: Then in the end it's because
5	it's the federal that gets to
6	GUY DANSIE: The federal oversight is
7	other states have been sued when they've pushed
8	legislation at the state level that conflicts with
9	the Airline Deregulation Act. And Wyoming, New
10	Mexico, Colorado, there's been numerous states around
11	here in the west that have been successfully sued
12	because they've tried to overstep their authority.
13	So
14	JAY DEE DOWNS: For helicopter service out
15	there, you pay a premium. And it's like \$25 or
16	whatever and they will come and pick you up anywhere.
17	GUY DANSIE: It's like an insurance-type
18	policy.
19	JAY DEE DOWNS: Yeah.
20	GUY DANSIE: So anyway, those are a couple
21	of things on the horizon on the legislation side.
22	There's also with oh, one of the things
23	I forgot to mention in our bill that changes our
24	language from like "certified" to "licensed," there's
25	also we're putting in there an exemption for

1 medical dispatchers who are employed by law 2 enforcement. So Regina might be happy about that. 3 Basically we will -- anybody that has a DPS background clearance will not have to have a 4 5 Department of Health or a Bureau EMS background clearance. Because we feel that it's wasteful 6 7 redundancy. And currently in statute we are mandated to do a background check on dispatchers who are 8 already receiving background checks on the public 9 10 safety side. So it's just a cost savings thing. 11 REGINA NELSON: This is Regina. Yes, we 12 will appreciate that cost savings per our licensure. 13 Thank you. Yeah. Regina, if they have 14 GUY DANSIE: 15 any testimony, I'm going to maybe drag you up there 16 on the Hill. REGINA NELSON: I'm fine with that. 17 18 GUY DANSIE: Okay, thanks. JEAN LUNDQUIST: Guy, can I ask a question 19 20 about -- back on the flight thing. Does the Bureau 21 now know what everybody charges in the state? 22 GUY DANSIE: No. We -- we did have an 23 executive directive from Dr. Miner. And Dr. Talliac, our EMS director here, actually received the 24 25 insurance information from the database. But it's

1	protected information, and so we can't identify
2	what's going on because the information is sensitive.
3	But we do know that in Utah there's the price
4	ranges are usually they're fairly close. You know
5	maybe a few thousand dollars difference. We're not
6	seeing the wide, high real super high prices. You
7	know by and large, we haven't seen that in Utah.
8	JEAN LUNDQUIST: I just had one of the
9	carriers talk to me and tell me about the billing
10	practices, and they were significantly higher.
11	GUY DANSIE: Yeah. Well, some of them are
12	average.
13	JEAN LUNDQUIST: \$25,000
14	GUY DANSIE: \$25,000 higher?
15	JEAN LUNDQUIST: higher.
16	LAUARA SNYDER: From where to where?
17	JEAN LUNDQUIST: The base, instead of
18	5,000 it was 30,000.
19	GUY DANSIE: See, that's actually what
20	this legislation is designed to do.
21	Did somebody just join us? Yep.
22	DON MARRELLI: This is Don.
23	GUY DANSIE: Good, Don. Thank you for
24	calling in.
25	DEAN YORK: Jim Guynn just sent me a text,

```
1
     and he doesn't know the number to call.
                                              Should I get
 2
    Gay to get it, or do you have it?
 3
                 DON MARRELLI: Do you want the number?
    I'll tell you.
 4
 5
                 GUY DANSIE: Okay.
                 DON MARRELLI: The phone number is
 6
7
     877.820.7831. The passcode is 107111.
                 DEAN YORK: 107111?
 8
                 GUY DANSIE: Yeah.
9
                                     Three ones.
10
                 DON MARRELLI: Yep.
11
                 GUY DANSIE: Anyway, I can't think of
12
     anything else real big on the legislative front. Is
13
    anybody else aware of anything else?
                 I know they're looking at fall -- like
14
15
    slipping-and-falling legislation for elderly.
     is the other one. And what that would do, it would
16
17
    require responders going to a home where somebody had
18
    slipped and fallen to report that within a week to
     their personal provider, their like primary care
19
20
    physician for the individual. So that one actually
21
    might be a little bit clunkier or cumbersome than we
    think. There might be a cost associated with it to
22
23
    develop a reporting system and so forth. But that
    bill may be pulled back. The senator -- or the
24
25
    representative that's running it might be pulling it
```

1	back and reworking it.
2	But there is a I think we're all
3	probably in agreement that when somebody does fall
4	falls are a big part of the elderly population's need
5	for 911 calls and so forth. And the local health
6	departments are working on programs to reduce the
7	falls. And so the intent really is to get the
8	elderly people aware that there is a program and to
9	get that help so that they can reduce the number of
10	falls. So that's on the horizon. I don't know where
11	it's at as far as
12	JEAN LUNDQUIST: Do you know who's
13	sponsoring that by chance?
14	GUY DANSIE: Yeah. It's Iwamato
15	[phonetic]. I'll get it to you.
16	JEAN LUNDQUIST: Bless you.
17	GUY DANSIE: Yeah. I'd have to look it
18	up. It starts with an "I."
19	JEAN LUNDQUIST: I can look it up.
20	GUY DANSIE: It's Iwa [phonetic].
21	TERESA BRUNT: And is that the ones you're
22	treating and releasing at the scene?
23	GUY DANSIE: Yes. That's what I at
24	least to my understanding.
25	TERESA BRUNT: So not being transported.

1	Just being treated and released.
2	GUY DANSIE: Yeah, the ones not being
3	transported.
4	TERESA BRUNT: Interesting. Big impact on
5	you guys.
6	GUY DANSIE: Yeah. And I don't know where
7	it's going. I think the intent is good, but the
8	mechanism to notify and report may be a little
9	difficult. And that was our opinion in the
10	legislation too. That's what we at least that's
11	what I offered toward the bill, and Jolene Whitney it
12	would impact her with the program.
13	LAUARA SNYDER: You know right now as EMS
14	ambulance, we don't necessarily have to even know who
15	our patient's primary care provider is
16	GUY DANSIE: Right.
17	LAUARA SNYDER: so come on.
18	GUY DANSIE: Yeah, you'd have to be a
19	detective to figure that out.
20	LAUARA SNYDER: Sometimes elderly people
21	aren't sure. They see so many doctors they don't
22	know which one.
23	GUY DANSIE: I think the idea of having
24	them receive help is a good thing. But how we do it
25	or should probably do it, that's the part of the bill

1 that's being looked at. Okay. 2 Should we rule on this -- any other 3 questions? Okay. So Jim, I -- bless his heart, he's 4 5 taken a stab at this. I don't know if you can all see the language on the screen, but what we were 6 7 trying to do is change the terminology over from "certification" to "licensure." And so we're 8 attempting to do that. And then also we're 9 10 attempting to look at the processes and some of the 11 things we do with our certification. We'll call it 12 certification for today. But as we change it to 13 licensure, we mean the same thing. But as the processes occur, we're also looking at changing some 14 15 of those things. And maybe we can just scroll down through. And if there's anything in the document 16 17 that you feel like maybe needs to be addressed. 18 hate to read it all verbatim. JIM HANSEN: A couple of notes. 19 20 document that you have, I sent it out to you and I 21 sent out to members of the professional development 22 And they have a task force that's looking at 23 recertification and certification stuff, and so they looked at it too. So what you're seeing up here is 24

going to have some of their comments on it as well.

25

1	But I did want to make, first of all, a
2	comment about licensure and the REPLICA bill because
3	according I mean we we're happy to have that
4	REPLICA bill come into play because it did have a
5	definition for licensing as meaning authorizing
6	authorization by the State for an individual to
7	practice as an EMT, an AEMT and paramedic or a level
8	in between EMT and paramedic. The problem with that
9	language though is it doesn't include dispatchers or
10	EMRs. So I'm hoping that that's
11	GUY DANSIE: The statute will be changed
12	so EMRs and dispatchers will be licensed.
13	JIM HANSEN: Recognizing the REPLICA was
14	done by somebody in the east somewhere, and EMR was
15	not at that time yet part of the National Registry.
16	LAUARA SNYDER: So will there be another
17	bill addressing the statute changes?
18	GUY DANSIE: No, no. REPLICA was passed,
19	and then we're changing our EMS Act language. And
20	one of the changes we will make, which is in the
21	draft, is that EMRs and EMDs "will be licensed" is
22	the term we use in the new language.
23	JIM HANSEN: Yep.
24	JEAN LUNDQUIST: Does that change any of
25	the qualifications, or we're just changing the

1	terminology?
2	JIM HANSEN: Terminology.
3	GUY DANSIE: Terminology.
4	JEAN LUNDQUIST: Okay.
5	GUY DANSIE: I think it will help
6	alleviate some of the confusion between currently
7	when you're in National Registry Certified or if
8	you're a dispatcher and you're certified by your
9	system, that means one thing. But being licensed is
10	something that the State does. Does that make sense?
11	So you're certified through your third-party, and
12	then you're licensed through the State.
13	So it looks like we on the first couple
14	parts of that, we just changed the terms.
15	JIM HANSEN: Now, so far as noting that
16	citing the sections within this rule, you're going to
17	have to work on that because this one screws up the
18	numbering system.
19	GUY DANSIE: That's okay.
20	JIM HANSEN: And so you'll have to when
21	you cite you'll have to
22	GUY DANSIE: We'll go back through and
23	change those.
24	Did somebody just join us on the phone?
25	JIM GUYNN: Jim Guynn.

1	GUY DANSIE: Oh, thanks Jim.
2	So as we read down through part 100 and
3	part 200, the only thing I did just before the
4	meeting is there was it's in there, it cites rule
5	438-12. And I found the citation actually under
6	Title 41-6-A-52 523 in the State code. That rule
7	is the one that they're rescinding or repealing. But
8	the authority for that rule comes out of the statute
9	that's that I've added.
10	JIM HANSEN: Right.
11	DAN CAMP: So, Guy, I've got a question
12	for it. In that 500 or the 200 part, Scope of
13	Practice, do we have somewhere in the rule that
14	defines that EMT-IA? Because right now the way that
15	reads we can certify anyone in that. But aren't
16	we haven't we limited that to just those agencies
17	that are currently just certified with IAs?
18	GUY DANSIE: Yeah. I think it's I
19	don't know exactly where it's at. But it's only
20	allowed for existing services that have IAs.
21	DEAN YORK: Grandfathered in until they're
22	gone.
23	GUY DANSIE: Right. Until they're
24	extinct.
25	LAUARA SNYDER: That's probably the best

1	like it is because the term "IA" is going away. And
2	so there's nothing to relate if you say "IA." But if
3	you say in between, I mean that's still pretty
4	ambiguous. But at least we don't have to have
5	another definition, right?
6	JIM HANSEN: Right.
7	GUY DANSIE: True.
8	DAN CAMP: I just bring that up because
9	isn't that still at the national?
10	JIM HANSEN: They don't have IA, they have
11	I-99.
12	DAN CAMP: I-99.
13	JIM HANSEN: And they don't have that as a
14	certification, but they are willing to provide states
15	with testing
16	DAN CAMP: Yeah, okay.
17	JIM HANSEN: for IA.
18	GUY DANSIE: And then we would license
19	them as IA.
20	JIM HANSEN: Or we would license them as
21	AEMT.
22	GUY DANSIE: Well, new ones. But the
23	existing ones we would continue on with IA, right?
24	JIM HANSEN: Yeah.
25	DAN CAMP: I just didn't want to see

1	somebody come back and say, well, look, I met all the
2	requirements and so now you have to do it. You see
3	what I'm saying, the way it's reading in there?
4	TERESA BRUNT: It's throughout the
5	document.
6	DAN CAMP: We all know it's just for
7	current IAs, but
8	JEAN LUNDQUIST: It's throughout the
9	document.
10	GUY DANSIE: Yeah. And I think we have
11	that in there further down. Let's rule through it
12	and see.
13	Is everybody okay to go to 300?
14	JEAN LUNDQUIST: Number 1, is that
15	verbiage correct?
16	GUY DANSIE: "The Department may
17	license"
18	JEAN LUNDQUIST: Oh, you changed it, okay.
19	GUY DANSIE: "an EMR, EMT or EMT-IA,
20	AEMT, paramedic or EMD"
21	LAUARA SNYDER: Do the people on the phone
22	have this where they can look at what you've changed
23	from "certification" to
24	DEAN YORK: It went out in the e-mail.
25	GUY DANSIE: Yeah. We sent it out in the

```
1
     e-mail.
              So hopefully you guys on the phone have
 2
    that. Primarily the document before us right now,
 3
    the one we're looking at, we're just crossing out
    wherever it says "certification" or "certify," and
 4
 5
    we're changing it to "licensure" or "licensed" or
     "license." "Licensing" I guess is the other one.
 6
7
                 Now, if we go down into 426-5-300, part C.
                 JEAN LUNDOUIST: 2C?
 8
                 GUY DANSIE: Jim added the word "any."
9
                 JIM HANSEN: And that was because of a
10
     comment made that, what, there was no clinical
11
    requirements for AEMT in the National Educative
12
13
    Standards. So "any" just kind of rather than being
14
    specific.
15
                 GUY DANSIE: Okay. It just leaves it
    broad based.
16
17
                 JIM HANSEN: Uh-huh (affirmative).
18
                 GUY DANSIE: Any discussion on that?
                 It looks like on part E, he struck out --
19
     this is the background part. It says, "Submit to and
20
21
    pass a background investigation, including an FBI
    background investigation." Then struck out "if the
22
23
     applicant has not resided in Utah for the past 5
    consecutive years."
24
25
                 JIM HANSEN: We should have done that
```

1	years ago.
2	GUY DANSIE: Yeah. We're doing it for
3	everybody across the board.
4	LAUARA SNYDER: Does that say you have to
5	have two background checks? You have to pass the
6	background investigation including a federal FBI
7	GUY DANSIE: That's part of the package.
8	When we do a background check
9	JIM HANSEN: it includes that.
10	GUY DANSIE: If you heard us talk about
11	the DACS system. And part of the interstate compact
12	actually allows states to communicate that back and
13	forth from state lines.
14	JEAN LUNDQUIST: If I go from an EMT to a
15	paramedic, do I have to pass another background
16	check?
17	GUY DANSIE: No.
18	GAY BROGDON: Once you're in the DACS,
19	you're done.
20	JAY DEE DOWNS: Once they have your
21	fingerprints on file, you've had it.
22	GUY DANSIE: Okay. If we go down to part
23	F, we changed some of the wording there. We took out
24	"the most current version of the American Heart
25	Association Guidelines" and just put "the most

1	current American Heart Professional Cardio Pulmonary
2	Resuscitation CPR and"
3	JEAN LUNDQUIST: Where are you?
4	GAY BROGDON: F.
5	JIM HANSEN: The reason for that is simply
6	because American Heart Association no longer has a
7	Health Care Provider level. They call it Health Care
8	Professional.
9	GUY DANSIE: So just updating the term.
10	JEAN LUNDQUIST: Health Care Professional.
11	GUY DANSIE: And BLS, Basic Life Support.
12	JIM HANSEN: It's the name of their
13	course.
14	GUY DANSIE: Okay. If we go down to part
15	four of that same heading. We scratched 120 days,
16	and we put "two years after the official course and
17	date the applicant shall successfully complete the
18	department approved National Registry of Emergency
19	Medical Technicians written" And then it goes on
20	to talk a little bit more. So we're allowing a
21	two-year window instead of 120 days.
22	JIM HANSEN: Yep.
23	JEFFRY GRUNOW: Jeff here. Why would you
24	do that?
25	JAY DEE DOWNS: That's the National
-	

1	Registry requirement.
2	JIM HANSEN: Because that's National
3	Registry requires it. And when we talked to our
4	staff, they had no problem with since everything
5	is in the computer now, our concern back in the 120
6	days is the records would get lost before they
7	ever if they took longer than that. But now
8	that's not an issue. So they're happy to allow that
9	two-year thing that National Registry allows.
10	JEFFRY GRUNOW: Well, okay. They won't
11	pass if they wait two years, but
12	JIM HANSEN: That's true. But that is
13	what National Registry will allow is that they can
14	test up to
15	JAY DEE DOWNS: But keep in mind if it
16	goes more than one year, they have to do the
17	practical exam all over again.
18	JEFFRY GRUNOW: That's true.
19	JAY DEE DOWNS: So I mean they're not just
20	left out at two years. They have to do something in
21	the meantime.
22	JEFFRY GRUNOW: Okay. Consistency is
23	good. Thanks.
24	GUY DANSIE: Thanks, Jeff.
25	And then it talks a little bit about the

I-99 for the EMT-IA, and that's what Jim talked about 1 earlier. And then he scratched out "EMD" because EMD 2 3 is not part of the National Registry. JIM HANSEN: National Academy, not 4 5 National Registry. JAY DEE DOWNS: Why not? 6 JEAN LUNDQUIST: All this is crossed out. 7 Is that going to be for EMD --8 GUY DANSIE: I think Jim brought up a 9 10 question that I think we probably ought to talk about. We've talked a little bit about having the 11 12 dispatchers maybe get together and review part of the 13 rule that we require. We have a very short piece in our designation rule and really not very much in this 14 15 rule that talks about what dispatchers should be doing. So that's something I think we need to 16 17 address, a gap I would think in our rule. And I 18 haven't done that yet, but we would like to probably 19 set a date. And if you guys want, we can invite all 20 of you. I wanted to kind of get together some --21 like a rough draft of some type of proposed changes 22 and then bring it back to this group and then have 23 you guys review it and modify or approve it or 24 whatever. 25 LAUARA SNYDER: That makes the most sense

1	because if you're going to be licensing these EMDs,
2	you have to have something in here.
3	GUY DANSIE: Right.
4	LAUARA SNYDER: But the best people to
5	develop it is the EMD people.
6	GUY DANSIE: The dispatchers, yes. And I
7	didn't want you to think I was trying to cut you guys
8	off at the knee, but I though I probably ought to get
9	the dispatchers to hash it out. And Regina would fit
10	in that category, but the rest of you, you know,
11	aren't dispatchers. And try to come up with some
12	decent language and then come back to this group so
13	we follow our rule-making process.
14	REGINA NELSON: This is Regina. If I
15	could interject. I think that's a really good idea.
16	And a couple of years ago when Erick Perry was
17	director or program manager for the 911 advisory
18	committee, we had put together a Standards and
19	Training Subcommittee, and all of us are still on the
20	911 committee. So we could quickly get that back up
21	and going and get you guys some language.
22	GUY DANSIE: Hey, and the other thing, I
23	knew you had changes. So Sean is no longer there as
24	well. And I know we were trying to kind of go down
25	that path. Do you guys have a draft, like some ideas

1	already or are you kind of starting from scratch?
2	REGINA NELSON: Nothing in draft. But we
3	did have a packet that we were going to send out to
4	all of the agencies.
5	GUY DANSIE: Okay.
6	REGINA NELSON: Then we also had a
7	checklist of what they needed to do in order to get
8	to achieve the licensure for the dispatchers as well
9	as the center. So we can quickly turn that into some
10	verbiage for you.
11	GUY DANSIE: Okay. Well, let me get
12	together offline with you, and we'll take it from
13	there. I'm not sure where the 911 advisory committee
14	is at this point. I know there's been a lot of
15	changes there with the administrative side of it.
16	REGINA NELSON: Yeah.
17	GUY DANSIE: So we'll get together off
18	line and work on putting that group together. And
19	then we'll bring it back to this group once we get
20	the language drafted, okay?
21	REGINA NELSON: Great. Thank you.
22	GUY DANSIE: Thanks, Regina.
23	Okay. So just to let you know, we're
24	working on the EMD piece.
25	JIM HANSEN: This strike-through section

1	is the test development that the Bureau used to have
2	to do. Because of the wording we felt comfortable in
3	just saying National Registry is our testing body.
4	And so we didn't ever really look directly at
5	changing it, but we are to the point now where we are
6	looking at it. We probably ought to
7	GUY DANSIE: Drop it out.
8	JIM HANSEN: drop it out and put
9	language in there about the process of National
10	Registry.
11	GUY DANSIE: So maybe we need to draft
12	something.
13	JIM HANSEN: Yeah.
14	GUY DANSIE: Maybe we need to readdress
15	this when we meet again. Come up with something and
16	then bring it
17	LAUARA SNYDER: So then when National
18	Registry changes anything, we would have to go back
19	and change our rules.
20	JIM HANSEN: Or language in here.
21	GUY DANSIE: If we reference it. Yeah,
22	pre-reference.
23	LAUARA SNYDER: That would be the easiest.
24	Because we're already referencing the American Heart
25	Association, so why would we need to specifically

1	state those.
2	GUY DANSIE: Yeah, do the same thing on
3	those.
4	JIM HANSEN: Yeah. But I wasn't about to
5	try and
6	GUY DANSIE: Well, we could we could
7	develop the language and then send it out. And I
8	don't think we're in a huge hurry on this part of the
9	rule. I mean I don't think anybody is losing sleep
10	over changing the rule right now. So if you want we
11	could bring it. I think our next meeting was
12	scheduled in March, on the 29th. Maybe we could put
13	that part in there.
14	And then also if we have some dispatch
15	language for their licensure, we could put that in
16	there and visit this again if that's okay.
17	And then down through nine, it looks like
18	it's mostly just changing "certification" to
19	"license."
20	"An individual," spelled out, "shall
21	maintain a valid license until the new license is
22	obtained."
23	And then we struck out part 10 that says
24	the department may extend the time limits.
25	JIM HANSEN: The 120-day thing.

1	GUY DANSIE: That's the 120 days.
2	JEAN LUNDQUIST: On number 9 where it
3	says the last sentence, "This license shall remain
4	current until new certification level is obtained."
5	DAN CAMP: That should be changed to
6	"license."
7	JIM HANSEN: It has been changed to
8	"license," yeah.
9	JEAN LUNDQUIST: It has been?
10	JIM HANSEN: Yeah.
11	GUY DANSIE: Is it not? Maybe on your
12	draft.
13	GAY BROGDON: But Jim, is that deceiving
14	because that license might expire before they obtain
15	a new one if they have to renew it.
16	JIM HANSEN: That's right. That's what
17	it's saying, they have to maintain it.
18	JEAN LUNDQUIST: So they have to do it
19	before theirs expires.
20	JIM HANSEN: Right.
21	GUY DANSIE: Okay. Anything on the rule?
22	Everybody okay with the language so far?
23	Okay. Let's look at R426-5-500. It looks
24	like they just changed the license "certification"
25	to "license." And then on the part 1, part B says,

```
1
     "The individual successfully completes all other
 2
    application and testing requirements for an AEMT
 3
    license." Do you see that?
                 JIM HANSEN: That's the paramedics' goal
 4
    that isn't cutting the mustard but they want to cut
 5
    him out, but he's taken enough to do the AEMT.
 6
 7
                 GUY DANSIE: Okay. Part R426-5-500, it
    looks like under one we changed the term "certify" to
 8
     "license." Subpart A says -- deleted out "of all
9
10
     cognitive, affective and psychomotor skills listed in
11
    the National EMS Education Standards."
12
                 JIM HANSEN: That was just too wordy.
13
                 LAUARA SNYDER: Can you go up back up a
     little bit? On the 400 did you change that to
14
     "license" instead of -- oh, yeah, you did. Okay.
15
                 JIM HANSEN: Yeah.
16
17
                 Like I say, we've had guys go through this
18
    since --
19
                 GUY DANSIE: Since we sent it out two days
20
    ago?
21
                 JIM HANSEN:
                              Yeah.
22
                 GUY DANSIE:
                              Probably just missed a word
23
    too. We can word search it again when we do the
    final draft to make sure we didn't miss any
24
25
     "certification" terms.
```

1	Okay. So you're okay with that strike-out
2	on 1A. Okay. Under 1C it says to change the word
3	"healthcare provider." We struck that out and put
4	"professional." CPR and ECC BLS.
5	JIM HANSEN: Yeah, again that's the
6	reference.
7	GUY DANSIE: 18 years of age or older.
8	Everybody still okay with that?
9	LAUARA SNYDER: Does the American Red
10	Cross have any heartache over that we've we are
11	referencing the American Red Cross.
12	JIM HANSEN: It says even the American
13	Red Cross will say they follow the AHA guidelines.
14	LAUARA SNYDER: Oh, they do?
15	JIM HANSEN: Yeah. So that's the
16	standard.
17	GUY DANSIE: Okay. Here's one I noticed.
18	"To become certified," is that supposed to be
19	under 2. Is that "certified" there?
20	JEAN LUNDQUIST: Should be "to become
21	licensed."
22	GUY DANSIE: That needs to be struck out
23	right there.
24	JIM HANSEN: Yeah.
25	LAUARA SNYDER: Tell the people on the

1	phone what number as it's hard to follow.
2	GUY DANSIE: 500, part 2, the term
3	"certified" is in there, and we didn't catch it. We
4	are striking that out and adding "licensed."
5	JIM HANSEN: Again, a good word search
6	will catch those.
7	GUY DANSIE: And then down under 2B.
8	JIM HANSEN: I did have a comment on E up
9	there, that as it reads right now, if a doctor or a
10	nurse wanted to challenge the test, which we
11	certainly allow and encourage, it says there that
12	they would have to challenge the EMT first before
13	they could challenge the AEMT. I always felt like a
14	nurse already knows.
15	GUY DANSIE: Yeah, I don't
16	JIM HANSEN: They're at AEMT level anyway.
17	So it's silly to say they've got to be an EMT before
18	they can challenge the AEMT.
19	GUY DANSIE: So if they're at a higher
20	level, they don't have to go back and do all the
21	JIM HANSEN: But that is a rule change
22	that you guys are looking at.
23	GUY DANSIE: Any discussion on that?
24	JEAN LUNDQUIST: This is just if they
25	challenge it?

1	JIM HANSEN: Yeah.
2	JEAN LUNDQUIST: They don't take the
3	course itself.
4	JIM HANSEN: Right. They have to do
5	everything but take the course.
6	LAUARA SNYDER: Does it say somewhere in
7	there that they have to be already licensed at a
8	higher level? Because could anybody just come in off
9	the street and challenge
10	JIM HANSEN: No, it says it has to be a
11	licensed nurse or practitioner. And they have to be
12	licensed in the State of Utah. 2C.
13	GUY DANSIE: Yeah, this whole section.
14	JIM HANSEN: The respiratory therapist
15	doesn't get to do it.
16	GUY DANSIE: Yeah, part one says who can
17	do it. That's that nurse to paramedic thing.
18	JIM HANSEN: Yeah. They don't get to
19	challenge the paramedic.
20	JEAN LUNDQUIST: What did you say?
21	JIM HANSEN: They don't get to challenge
22	the paramedic.
23	LAUARA SNYDER: Why not?
24	JIM HANSEN: Because it's never been done
25	before.

1	LAUARA SNYDER: Why can't we be the first?
2	GUY DANSIE: They could challenge it, but
3	they might not succeed.
4	JEAN LUNDQUIST: You're saying you're not
5	giving them an option.
6	JIM HANSEN: Right now there is a process,
7	and this is something that the EMS committee has
8	looked at several times. But the process right now
9	is if a nurse takes a paramedic course, they can even
10	participate in teaching the course and doing all
11	those other things and it's up to the course
12	coordinator to determine what they would need to
13	complete. And so the course coordinator is the one
14	that can determine they are able to test for
15	paramedic.
16	JEAN LUNDQUIST: I thought you'd have to
17	sign up for the course.
18	JIM HANSEN: Yeah, and then that's been
19	since Val Poncelet did it in 1983.
20	JAY DEE DOWNS: To give understanding, so
21	what happens is you leave it up to the course
22	coordinator. So if the nurse comes in and enrolls in
23	the paramedic class, the nurse coordinator determines
24	what classes or what modules they would need; is that
25	right?

1	JIM HANSEN: Right.
2	JAY DEE DOWNS: Is that what you're
3	saying?
4	JIM HANSEN: Right. That's our process
5	now.
6	JAY DEE DOWNS: Which makes sense.
7	JIM HANSEN: Because every time we get
8	into that discussion, we hear the paramedics say,
9	well, why can't we challenge a nurse?
10	GUY DANSIE: The nurses are smiling for
11	the record.
12	JEAN LUNDQUIST: Go for it.
13	TERESA BRUNT: I'll put you to work.
14	JEAN LUNDQUIST: I'm fine with that.
15	JAY DEE DOWNS: You know what, I don't
16	have a problem with that. Because I mean I think
17	there's just enough differences in both worlds that
18	you know there is some things they have to dance
19	through on both sides of the fence.
20	JIM HANSEN: Yeah.
21	GUY DANSIE: Yeah.
22	JAY DEE DOWNS: So I don't know. Anybody
23	else?
24	LAUARA SNYDER: No, I think it's good.
25	And I was just thinking in some of the rural areas

where they have a shortage of EMS personnel to make a legal crew, if some of those nurses or nurse practitioners who are operating in the clinic could do the -- you know challenge the paramedic or the AEMT depending on the licensure of the service, that would be helpful to staff that ambulance for some of the transports at night. And if they're willing to do it, I think we should try and accommodate that. JEAN LUNDQUIST: From a nurse's 

perspective who took an EMT course, nurses don't learn anything about that. We don't learn anything about the field. We don't learn anything about how to transport the patients. You don't learn anything about how to package them for transport. There's a big gap there. I mean it could be learned obviously on the job, but there is a big gap there.

LAUARA SNYDER: I think that's probably true, but I'm thinking that probably where this will be used the most is in these rural areas. Like in Green River a couple of years ago, they didn't even have staff to respond to anything. So if they had a cardiac arrest, they couldn't send an ambulance. And so the Bureau said, no, because you don't have a licensed staffed ambulance. And so if those nurses could, quote, become a paramedic and be willing to go

1	because in those rural areas a lot of times the
2	clinic staff will carry pagers and respond in an
3	emergency. And they could go with them in town until
4	they could get more training and more people. But
5	some of these places you just can't get people. And
6	if the local clinic folks are willing to help
7	GUY DANSIE: We actually have some that
8	are doing that, have nurses that respond as EMTs
9	on
10	JEAN LUNDQUIST: Can you run as a nurse?
11	JAY DEE DOWNS: Let me clarify something.
12	It used to be that the coordinator used to still
13	if a nurse could come in and challenge a test, the
14	coordinator could be you still could have the
15	coordinator sign off on the skills. Is that still in
16	place, Jim?
17	JIM HANSEN: That's more or less the
18	coordinator and the medical director of the course.
19	JAY DEE DOWNS: Yeah. So the thing is
20	that you're talking about learning how to package
21	patients, they can come in and challenge the written
22	test, be it the advanced or the basic. And the
23	coordinator will sign off for teaching them the
24	skills. That's what I understood before.
25	Now let's talk about the advanced. The

1	advanced, the way curriculum is now, it would be
2	nothing for the nurse to challenge the advanced EMT
3	because there's only six drugs and the defibrillator.
4	There's not anything else. So that again goes back
5	to the course coordinator and medical director to
6	sign off on those skills, and then the nurse or
7	whatever can go and challenge the test. That's the
8	way I understand it. I might be wrong.
9	JIM HANSEN: Right, right.
10	JEAN LUNDQUIST: That makes sense.
11	JIM HANSEN: We don't see a reason why the
12	nurse would need to pay an additional application fee
13	for EMT.
14	JEAN LUNDQUIST: Yeah, that's nice.
15	JIM HANSEN: So that was kind of our
16	thoughts.
17	JEAN LUNDQUIST: Just out of curiosity,
18	can nurses run on an ambulance?
19	JIM HANSEN: Not as they can run an on
20	ambulance, but they can't be counted as part of the
21	staff. They require two EMS providers and the nurse
22	is not.
23	So they can have two EMTs and a nurse.
24	That's okay.
25	JEAN LUNDQUIST: You have to have at least

1	two EMTs?
2	GUY DANSIE: Yeah.
3	JAY DEE DOWNS: That's also for billing
4	purposes because you have to have a roster for that.
5	JIM HANSEN: But if the nurse is a
6	certified AEMT then they could certainly be counted
7	as
8	JEAN LUNDQUIST: Yeah.
9	GUY DANSIE: Just for instance Wasatch is
10	doing that right now. They have a nurse that wants
11	to be certified so that they can meet their staffing
12	requirement using the nurse as a certified person.
13	JEAN LUNDQUIST: But they're they're
14	going to be AEMT? Is that the one they're
15	challenging?
16	JAY DEE DOWNS: When you really look at
17	what you're saying with the paramedic program.
18	They're almost doing the same thing. The course
19	coordinator is doing the same thing. I need to teach
20	this person this, this, and this. You know that they
21	qualified in that. So it's the same thing as EMT and
22	AEMT, which is more in-depth level. That's the way I
23	look at it.
24	JEAN LUNDQUIST: Which is needed.
25	JAY DEE DOWNS: Yeah, absolutely.

1	GUY DANSIE: Okay. Are we good with that
2	section then? Good?
3	It looks like we put a cross-reference for
4	the TB portion down at the bottom, the very last part
5	of 500, part F, with the renumbered. Just
6	cross-referencing it.
7	I had a question on the TB thing, and this
8	is maybe a Dr. Talliac question. For EMD, we require
9	TB testing. And I was reading through that for
10	certified individuals. And then for an EMD, would
11	that be a requirement that we need? Just thinking
12	outside out loud. Because they're not being in
13	contact with patients or anything.
14	JIM HANSEN: Right. So TB what
15	GUY DANSIE: Maybe I'll talk to
16	Dr. Talliac. Because it seems to me like the TB test
17	may not be applicable as a dispatcher.
18	JIM HANSEN: I don't think it is at 700.
19	GUY DANSIE: It is not? Okay. I don't
20	know if it's does it say anything in there?
21	GAY BROGDON: Guy, before you go on, on
22	that 600, that number 1 at the bottom of the sentence
23	it says, "recertification cycle." Do you want to
24	change that to the "licensing"?
25	GUY DANSIE: Oh, the word "certification"?

1	Yeah, good catch.
2	REGINA NELSON: Guy, this is Regina.
3	Just a thought, some of the EMDs are also
4	working in the jails. Does that have anything a
5	need?
6	GUY DANSIE: Well, that would be a jail
7	issue, not an EMS issue.
8	REGINA NELSON: Okay.
9	GUY DANSIE: But I'm not saying we should
10	take it out. I'm just saying I don't know if it's
11	needed in there. Maybe we should maybe we'll
12	leave it in. Maybe we don't need it. I don't know.
13	LAUARA SNYDER: It's an extra expense for
14	the agencies if you don't need it. If all they're
15	doing is working in a dispatch center, then they
16	don't have to pay for them to go get that test.
17	GUY DANSIE: That's kind of what I'm
18	thinking.
19	REGINA NELSON: Yeah. Like Guy said if
20	it's on their side on the corrections side of it,
21	then they can get it through there. Agreed. Okay.
22	GUY DANSIE: Yeah. We wouldn't mandate
23	it, but the jail would.
24	Okay. As we look down through 600, I
25	noticed in the very first one we used

"recertification." We probably ought to put
"relicensure."
JIM HANSEN: Or renewal.
GUY DANSIE: Renewal. Let's do "renewal."
JEAN LUNDQUIST: It sounds like you're
renewing them.
GAY BROGDON: On C it says "certification"
too.
GUY DANSIE: Gay has got the eye today.
Where?
GAY BROGDON: The bottom sentence, last
word.
GUY DANSIE: Oh, I see it. 600.
GAY BROGDON: C.
GUY DANSIE: Number 2, part C. Do a
strike out there.
JIM HANSEN: The sentence probably ought
to be reworded. CPR shall be kept current during
GUY DANSIE: license period or license.
Do you have an alternative way of saying
it?
JIM HANSEN: I can't think of it.
I like the word "must." But they hate it,
the word "must." So shall
GUY DANSIE: Well, we went through and

1	"shalled" everything. That was on our last year or
2	two when we were working on it.
3	JIM HANSEN: Yeah.
4	GUY DANSIE: Okay. We struck out part E,
5	"successfully complete the department application,
6	written and practical recertification exams or
7	reexaminations if necessary within one year prior to
8	expiration."
9	We're not doing that part anymore, right?
10	JIM HANSEN: We stopped doing that in
11	2012.
12	GUY DANSIE: Okay. So we're striking
13	that.
14	JIM HANSEN: But we also have to remind
15	everybody with the caveat if they lapse, they have to
16	test.
17	GUY DANSIE: Okay.
18	JIM HANSEN: But that's in the lapsed
19	section, so we're okay.
20	GUY DANSIE: So my 3 is highlighted.
21	LAUARA SNYDER: Did you make a note on D
22	about the TB tests?
23	JIM HANSEN: Well, actually on 700 it's
24	there.
25	GUY DANSIE: So it says, "submit TB test

1	results." So in 700, it sounds like that's where
2	we'll look at it, right?
3	JIM HANSEN: Yeah.
4	LAUARA SNYDER: Yeah. But up above it you
5	have listed here. And then down there you have it
6	listed out as TB testing. So it's in two places. So
7	back on page 4.
8	GUY DANSIE: I'm just saying we
9	LAUARA SNYDER: Above the 600 it would be
10	the new E?
11	GUY DANSIE: Yeah. "Submit a statement
12	from a physician, confirming the applicant's results
13	of the TB examination conducted." So then we say it
14	again later. So probably strike the word
15	JIM HANSEN: That's why we're really
16	saying the EMD needs their own section because that's
17	referring to all of them and yet?
18	GUY DANSIE: Yeah. That's what I'm
19	thinking, we probably
20	JIM HANSEN: In 700, the first thing it
21	says is it doesn't include EMDs.
22	LAUARA SNYDER: Yeah, I was looking at 2E
23	right there, "to submit a passed background screening
24	clearance as per R426-5-2700."
25	JIM HANSEN: Right.

1	LAUARA SNYDER: So we've got different
2	kind of references throughout this. We need to clean
3	it up some.
4	JIM HANSEN: Oh, yeah. That's what he's
5	talking about, about the number changes.
6	GUY DANSIE: So this whole section I'm
7	just going to back up pertains to the challenges,
8	right?
9	JIM HANSEN: Yeah, that's just
10	challenging.
11	GUY DANSIE: So they're not challenging
12	for EMDs. So this doesn't pertain to EMD. Then 600
13	is for all licenses.
14	JEAN LUNDQUIST: Renewal.
15	GUY DANSIE: So that's where, if we're
16	going to exempt EMDs, we would need to make a note
17	there. See, and then, yeah, we have EMD has their
18	own 48 hours of CME.
19	The TB thing up here, we need to I'll
20	put a note in here to exempt EMD.
21	JIM HANSEN: But then again where it says
22	as per R426-5-700, that is the first time 700 EMDs
23	are included. So it really is saying it anyway.
24	GUY DANSIE: Oh, does it?
25	JIM HANSEN: Yeah.

1	GUY DANSIE: So are we okay to not say
2	anything there?
3	JIM HANSEN: Like I said when you refer to
4	this and then the reference says not EMDs.
5	GUY DANSIE: So not EMDs on 700. I'm just
6	going to go down and look at it real quick.
7	JEAN LUNDQUIST: Where are you looking?
8	JIM HANSEN: 700.
9	GUY DANSIE: So on 426-5-700 it says, "TB
10	test requirements. All levels of licensure, of
11	license renewal except EMDs." So we've got it in
12	here. So it's not in there.
13	JEAN LUNDQUIST: Okay.
14	GUY DANSIE: So we are already allowing
15	them not to have TB tests.
16	JIM HANSEN: Yeah.
17	GUY DANSIE: Okay. That was my question
18	from earlier. Where did we leave off?
19	JIM HANSEN: Somewhere in 600.
20	DEAN YORK: Three.
21	GUY DANSIE: Three. And we had it
22	highlighted.
23	JEAN LUNDQUIST: Are you taking that out
24	or
25	JIM HANSEN: Yeah, this is some of the

1	comments that we're getting is National Registry has
2	a recertification process. I don't know what NCCP
3	stands for. But the NCCP is competency provided CME
4	or something like that. And they and their
5	program is designed where there is a national
6	50 percent of their required CME is based on a
7	national program that they can change. And as times
8	change, that national registry establishes. And then
9	25 percent will be topics that the State would
10	establish. And then 25 percent of the required would
11	be a local that the medical director or somebody
12	would determine that they specifically needed. And
13	so and it's there's a setup obviously in a
14	two-year certification period. And so they would
15	require like 40 hours of CME rather than the or 80
16	if you double it. But whereas ours are these
17	numbers are 52, 98, 108, 108 and 144 hours.
18	And the guys that have worked on this
19	really would like to see us just eliminate those
20	hours and refer back to the recertification guide
21	that so we don't have to change it in the rule
22	every time.
23	GUY DANSIE: So the National Registry
24	guide
25	JIM HANSEN: Yes.

Г	1
1	GUY DANSIE or requirement?
2	JIM HANSEN: No, our recertification
3	guide.
4	GUY DANSIE: Oh.
5	JIM HANSEN: And then we would make those
6	State certifications.
7	GUY DANSIE: So take it out of the rule
8	and put it in policy?
9	JIM HANSEN: Right. We have already done
10	that. The only thing we didn't take out was the
11	actual hours required.
12	GUY DANSIE: So at part four, would we
13	want to strike the numbers of hours in there? Is
14	that what you're suggesting?
15	JIM HANSEN: Perhaps even strike number
16	four.
17	JEAN LUNDQUIST: Is that how did the
18	hours come? I mean there's no like conferences and
19	stuff they have the CMEs.
20	JIM HANSEN: Right.
21	JEAN LUNDQUIST: Is it written as CMEs
22	under these other requirements, like specific hours
23	of CME? Do you see what I'm asking?
24	JIM HANSEN: Right.
25	JEAN LUNDQUIST: It is written the same.

1	JIM HANSEN: Yeah.
2	JEAN LUNDQUIST: So those two cross.
3	JIM HANSEN: Yeah, yeah.
4	GUY DANSIE: While I'm trying to wrap my
5	head around this, you're saying we should probably
6	have three in the rule that's highlighted and then
7	delete four in the subparts A, B, C, D, E, F, just
8	take those out. And then maybe we could put a new
9	four in there for EMD.
10	JIM HANSEN: Uh-huh (affirmative).
11	GUY DANSIE: Is that what you're thinking?
12	JIM HANSEN: Yeah. I'm not quite sure
13	with EMDs.
14	GUY DANSIE: Or we could have a different
15	number, a whole different number for EMD.
16	JIM HANSEN: Yeah. Like I said, that can
17	be part of the discussion of what EMD requires.
18	GUY DANSIE: So in Jim's document that we
19	handed out, he edited part 4. But do we want to
20	strike the whole thing out; is that what you're
21	saying?
22	JIM HANSEN: That's yeah.
23	GUY DANSIE: Is there any problem with
24	that?
25	JIM HANSEN: Or just look at and

1	DAN CAMP: On
2	LAUARA SNYDER: On the number 3 where it
3	says, "Outlined in the department's recertification,"
4	that's probably relicensure protocol. Where is that
5	relicensure protocol?
6	JIM HANSEN: It's on the website.
7	LAUARA SNYDER: Okay. That doesn't have
8	to be in the rule.
9	JIM HANSEN: Right. That's why the word
10	"recertification" is left there is because that is
11	the document's name. But the document's name is that
12	because the rule has that name.
13	GUY DANSIE: So we'll
14	JIM HANSEN: So if we change that to a
15	certification, then that
16	GUY DANSIE: Chicken-and-egg thing.
17	JIM HANSEN: Yeah, it really is.
18	JAY DEE DOWNS: Correct me if I'm wrong,
19	Jim, isn't it the National Registry that did that,
20	that did establish the National Standard and kind of
21	had those recertification requirements?
22	JIM HANSEN: Yes. We
23	JAY DEE DOWNS: So for us to put those in
24	the rules, we just better reference the document
25	rather than change the rule. Is that what we're

1	trying to do?
2	JIM HANSEN: It could work out well that
3	way. But if we reference we reference this
4	document, the recertification manual, then that
5	manual can
6	JAY DEE DOWNS: Can change accordingly.
7	JIM HANSEN: Can change accordingly. So
8	that's kind of the thought behind that. So really 3
9	is the key, and 4, 5 and 6 could probably be struck.
10	GUY DANSIE: Struck. So is everybody okay
11	recommending that? Strike 5? We're going to strike
12	5 and 6; is that what you said?
13	LAUARA SNYDER: Four through 6.
14	DEAN YORK: So Jim, I have a question.
15	JIM HANSEN: Uh-huh (affirmative).
16	DEAN YORK: And that is there's a handful
17	of my paramedics that have kept their national.
18	Because once national certified, they're just going
19	to grandfather in the state and drop their national.
20	So in tracking that training, the ones that are
21	national I'm their course coordinator, and I can see
22	where they are in training. Those who are not, I
23	track their training through the firehouse. Am I
24	still telling them it's still 144 hours?
25	JIM HANSEN: Well, see that and that's

1	part of what our task force, the Professional
2	Development Task Force on recertification is looking
3	at, is they would like to see it as National
4	Registry.
5	There's basically three ways to recertify
6	with national registry. One is test. If you want to
7	take the test, you can take the test and recertify.
8	Or number two, you can follow the old system of
9	meeting the CME hours, signed by the medical director
10	for that. Or now they've got this NCCP, which is
11	less hours, but you have to be very specific on the
12	topics. And I think that they will probably soon go
13	to the NCCP.
14	DEAN YORK: Which then will be adopted by
15	the State.
16	JIM HANSEN: That's our plan, yeah.
17	GUY DANSIE: Okay. So it probably makes
18	sense to strike out the specific hours in the rule
19	and just reference theirs, right?
20	JIM HANSEN: Leave it to the reference,
21	yep.
22	GUY DANSIE: Everybody okay with that?
23	Everybody is nodding. Anybody on the phone have any
24	comments?
25	It seems like a radical move, but all

1	right. I think it's good. I think it's good.
2	JEAN LUNDQUIST: Is it on 5, where it
3	says, "30 percent shall be practical hands on"?
4	JIM HANSEN: Right, we strike all of that
5	off.
6	JEAN LUNDQUIST: That will be addressed in
7	the NCCP as well.
8	JIM HANSEN: Right.
9	GUY DANSIE: Okay. Question before we
10	move on. Part 3. Is that new language, Jim, or is
11	that
12	JIM HANSEN: Nope, that's
13	GUY DANSIE: That's already in the rule?
14	JIM HANSEN: That's in the rule.
15	GUY DANSIE: Okay. So I won't underline
16	that.
17	TERESA BRUNT: Do you spell it out at
18	least one time that it's the national whatever so I
19	don't have to guess what NCCP is?
20	JIM HANSEN: Well, it won't have that in
21	the rule. That will be in the manual.
22	TERESA BRUNT: Okay.
23	GUY DANSIE: Then I need to change the
24	term "recertification."
25	JIM HANSEN: It might be like National

1	Competency CME.
2	TERESA BRUNT: National Continued
3	Competency Program, I don't know, or something like
4	that. I'll have to look it up.
5	JIM HANSEN: Something like that, yeah.
6	GUY DANSIE: So I'm taking the word
7	"recertification," and since this is just draft,
8	should we put "renewal" or
9	JIM HANSEN: License renewal
10	GUY DANSIE: License renewal.
11	JIM HANSEN: protocol. That way you
12	can change that name on the document.
13	GUY DANSIE: I'm putting it in caps
14	because it's a proper noun, right?
15	JIM HANSEN: Yeah.
16	GUY DANSIE: My Nebo School District
17	education is paying off.
18	JIM HANSEN: I fight with Carla all the
19	time on that. We don't capitalize all of it.
20	JEAN LUNDQUIST: It stands for National
21	Continued Competency Program for EMS.
22	JIM HANSEN: Right.
23	GUY DANSIE: But we're just going to
24	reference that in the policy, right?
25	LAUARA SNYDER: Is it National Registry

1	that is in charge of that?
2	JIM HANSEN: Yes.
3	JEAN LUNDQUIST: NREMT.
4	JIM HANSEN: Yes. But we as a State have
5	to adopt and establish the 25 percent.
6	JEAN LUNDQUIST: National Continued
7	Competency Program.
8	GUY DANSIE: Okay. If we go down in the
9	document with 6, it looks like we didn't do anything
10	there other than change "license" from
11	"certification."
12	Seven, you struck out, "The CME
13	instructors need not be certified EMS instructors,
14	but shall be knowledgeable in the subject matter."
15	JIM HANSEN: I've always hated that.
16	JEAN LUNDQUIST: Me too. Isn't that a
17	given?
18	JIM HANSEN: It should be, but it's always
19	been a source of contention.
20	GUY DANSIE: It's fine. I don't mind. I
21	think it's good.
22	Okay. Then 7, it looks like he changed
23	"licensure" or "license" and got rid of the "of
24	certification."
25	If you go down to the old 9, the new 8,

1 changed "recertification" to the word "renewal," 2 which I think is a good change. And then -- in two 3 places. Ten, the same thing there, 4 "recertification" to "renewal." 5 "EMS education standards at their license 6 7 level," which is a more direct way of saying it, addressing certification. 8 Scrolling down through part 11, it looks 9 10 like we changed the terminology there again. 11 Part 12, "renewal" again substituted for 12 "recertification." "Individual EMR, EMT AEMT." 13 JIM HANSEN: I'd just say it's redundant. GUY DANSIE: Okay. And then we just kind 14 15 of cleaned up the wording so that it's a little easier to read probably, huh? 16 17 JIM HANSEN: Yeah. 18 GUY DANSIE: 13 -- stop me if anybody has 19 any comments. 20 On 13 it says, "The department may shorten 21 an individual's license expiration periods, or EMD 22 whose" -- is that supposed to be expiration? 23 JIM HANSEN: Yes, it is. JAY DEE DOWNS: Some agencies out there 24 25 like us to recertify their people all at the same

1	time. Isn't that about right?
2	JIM HANSEN: Yes, that is the reason.
3	JAY DEE DOWNS: Excuse me, re-license
4	their people all at the same time.
5	LAUARA SNYDER: But you can't leave them.
6	You can't make the one to be five.
7	GUY DANSIE: We can shorten it, but we
8	can't lengthen it. That's what the next one says.
9	JIM HANSEN: Yeah.
10	GUY DANSIE: So are we good to go to 700?
11	DEAN YORK: The bottom of 14, is it renew
12	or shall "recertify" in accordance with Utah, or is
13	it "renew" in accordance to?
14	LAUARA SNYDER: It should be renew.
15	GUY DANSIE: Where are you at, 14?
16	DEAN YORK: Yeah.
17	GUY DANSIE: "If this happens, the
18	individual may recertify" It should be renew,
19	huh?
20	JIM HANSEN: Yes.
21	GUY DANSIE: Good.
22	JIM HANSEN: Good catch.
23	GUY DANSIE: Nice.
24	JIM HANSEN: That's why we pay you guys
25	the big bucks.

1	JAY DEE DOWNS: Really.
2	GUY DANSIE: Just for the record I saw
3	that we I'll spell "expiration" the proper way. I
4	think that's the right way. I crossed out the "E"
5	and put an "I" in there. Is that how you spell it?
6	Anybody educated? Okay. Duly noted we will change
7	that. Okay.
8	So we're getting to the TB test
9	requirement.
10	JIM HANSEN: And that's Peter's.
11	GUY DANSIE: Okay. We've already exempted
12	the EMT, and that's what I was worried about the
13	EMD, excuse me. And that's what I was concerned
14	about. It looks like it's already in there that
15	they're exempt. So we're not changing anything other
16	than the terminology.
17	JIM HANSEN: Part 4 of
18	GUY DANSIE: This is under 700 part 4?
19	JIM HANSEN: Yeah, I think it's part 4.
20	"May deny," is that the one?
21	GUY DANSIE: May deny or revoke?
22	JIM HANSEN: Yeah. But that was thrown in
23	there because they may contract they may have a
24	negative TB test after they've been licensed and
25	therefore

1	GUY DANSIE: Then they become active.
2	JIM HANSEN: then become active and the
3	license would have to be revoked.
4	GUY DANSIE: Okay. It just means we would
5	take the license back if they're causing a health
6	problem for other people.
7	JIM HANSEN: Not just denied but revoked.
8	GUY DANSIE: How about suspended?
9	JIM HANSEN: It could be suspended, but
10	GUY DANSIE: That's fine.
11	JIM HANSEN: I don't know if "revoked" is
12	the word we use in the rest of the rule.
13	GUY DANSIE: I'll look into that because I
14	think I thought in the disciplinary when we're not
15	sure about a person, we suspend it or restrict it.
16	So I'll find out which legal term we should use.
17	Revoke means that you can't have it anymore. And if
18	we restrict it, it means you're not allowed to do
19	certain things.
20	JIM HANSEN: Yeah.
21	GUY DANSIE: Okay. Do we want to go down
22	to reciprocity? Anything I'm missing?
23	JIM GUYNN: The clarification of health
24	care provider, who can actually administer and read
25	the TB test?

1	LAUARA SNYDER: That's a good question.
2	JIM HANSEN: A very good question.
3	JEAN LUNDQUIST: I can't comment.
4	JIM HANSEN: I don't have an answer.
5	LAUARA SNYDER: Right now I don't think
6	that it says paramedics or whatever. It's supposed
7	to be the nurses.
8	JIM GUYNN: It just says physician or
9	health care provider. We have EMTs doing our own
10	testing in-house, and it's decidedly less money. I
11	know that some other agencies down here have done the
12	same, and the Bureau has not had a problem with that.
13	I just want to make sure that we are okay to continue
14	with that process.
15	JIM HANSEN: I think that's why we left 9,
16	health care provider.
17	GUY DANSIE: Just left the vanilla.
18	JIM GUYNN: Okay. Done.
19	DEAN YORK: Yeah.
20	GUY DANSIE: Okay.
21	JIM GUYNN: And my recommendation would be
22	to leave it at that. Because it's less money than
23	sending them to like WorkMed or the county health
24	department.
25	GUY DANSIE: Okay. And I think Peter is

1	okay with the way it currently is. I don't
2	JIM GUYNN: Okay. Perfect. Thank you.
3	GUY DANSIE: So we'll just let it ride.
4	JEAN LUNDQUIST: "Need only be maintained
5	by the department only to be provided once" oh,
6	that's prior treatment, okay. Sorry.
7	JIM HANSEN: Yeah, that's after that.
8	GUY DANSIE: There's the word "revoked."
9	Is that where I saw it earlier?
10	JIM HANSEN: Yeah, that's the same place.
11	GUY DANSIE: Okay. I think we're probably
12	going to say "restrict" honestly, but I'll look into
13	that.
14	JIM HANSEN: Feel free to change it. That
15	was just a suggestion.
16	GUY DANSIE: Revoke is usually when
17	they've done something bad and we have to take
18	punitive action against them or corrective action.
19	JIM HANSEN: Yeah. And I'm sure their
20	reason for wanting a word there was because it may
21	not be denied, it may be after they've been granted
22	and now it's being taken away.
23	GUY DANSIE: Right, suspended. Suspended
24	might be good until their conditions are met and then
25	give it back.

1	JIM HANSEN: Yep.
2	GUY DANSIE: Okay. Reciprocity. Is this
3	a good place for a break?
4	DEAN YORK: Sure.
5	GUY DANSIE: Let's take a break for five
6	to 10 minutes.
7	(Short break taken.)
8	GUY DANSIE: We left off on reciprocity,
9	that's R426-5-800. Part 1 changed the terms
10	"certify" to "license. "Who is licensed by another
11	state or certifying body."
12	JAY DEE DOWNS: Can I ask a question? So
13	if the part of the compact states, right, that's what
14	we're calling them, do they have reciprocity?
15	JIM HANSEN: For now, yes.
16	JAY DEE DOWNS: I thought that was the
17	whole reason we were going that way.
18	JIM HANSEN: Well, when we finally have a
19	compact then that may change.
20	JAY DEE DOWNS: Okay.
21	GUY DANSIE: But not all the states are
22	part of the compact. So if it's Arizona Colorado
23	is Arizona, which is not a compact state but
24	somebody moves here, then
25	JAY DEE DOWNS: You'd have to do it.

1	GUY DANSIE: Then we'd have to look at it
2	and then evaluate and reissue.
3	JIM HANSEN: Basically it says in this if
4	they're nationally registered and that's part of the
5	compact process, then they could be certified in Utah
6	or licensed in Utah.
7	GUY DANSIE: So this is just a question to
8	help me: So if somebody in Arizona, who is not
9	nationally registered/certified, came to Utah but
10	they have training in other things, how would we do
11	that?
12	JIM HANSEN: Right now the requirement
13	would be they would take the National Registry
14	Assessment.
15	GUY DANSIE: Take the test?
16	JIM HANSEN: Take the test.
17	JAY DEE DOWNS: The assessment exam, there
18	we go.
19	GUY DANSIE: There we go.
20	JAY DEE DOWNS: I've got it.
21	JIM HANSEN: And a couple of these changes
22	are just reflecting the fact that, like forest
23	rangers or park rangers, will just have National
24	Registry. And now they want reciprocity in Utah, so
25	we can with that National Registry we can go ahead

1	and do that. So that's when it talks about a
2	government body.
3	JAY DEE DOWNS: Thanks for clarifying
4	that.
5	GUY DANSIE: Thanks, Jim, we're all being
6	educated today.
7	JIM HANSEN: Well, so much of this comes
8	from everybody has somebody's name on it.
9	GUY DANSIE: Okay. We've looked down
10	through 1. Looking at 2 we change the certification
11	license. 2A, we took away the signature.
12	JIM HANSEN: Because it's all done on
13	electronic.
14	GUY DANSIE: It's electronic now.
15	JIM HANSEN: So we can't capture the
16	signature.
17	GUY DANSIE: And we deleted the within the
18	120 days of submitting the application. We already
19	said it's two years earlier, right?
20	JIM HANSEN: Well, reciprocity could be
21	120 days. But because you know again who cares if
22	they're if they applied for reciprocity but
23	haven't finished the process two years later. You
24	know, who cares.
25	GUY DANSIE: Okay. I'm adding a

1	strike-out to 2700 on part B, 2B.
2	JIM HANSEN: Because it isn't?
3	GUY DANSIE: Because it's changed in the
4	draft. And I can't remember what it is. It's
5	probably like 30 or 3100 or something at this point.
6	JIM HANSEN: Yeah.
7	JEAN LUNDQUIST: Which one is that?
8	LAUARA SNYDER: 2B.
9	GUY DANSIE: The cross reference in B,
10	it's the background screening clearance. And I know
11	that that's being that number has changed.
12	Because of the blood draw actually, it took them all
13	down.
14	Okay. C, we'll read through C. It says
15	"Health care provider" will be changed to
16	"professional CPR," and out of the BLS. That's the
17	same as it was earlier.
18	JIM HANSEN: Yep.
19	GUY DANSIE: "A paramedic candidate must,"
20	I want to change that to "shall." "also provide
21	documentation"
22	JIM HANSEN: Yes.
23	GUY DANSIE: "successfully
24	completions" how about "successful completion."
25	JIM HANSEN: That's good.

1	GUY DANSIE: Of ACLS and PEPP or PALS
2	courses (or the equivalent of each) within the prior
3	two years."
4	JAY DEE DOWNS: How do you verify the
5	equivalent?
6	JEAN LUNDQUIST: Yeah, what's the
7	equivalent?
8	JIM HANSEN: Well, for reciprocity it is a
9	little more difficult. But the thing is, it's not
10	just I mean there are ACLS courses that the
11	National Safety Council puts on or Red Cross or other
12	agencies. So that's where the equivalent comes in,
13	that they could come in with a card from somebody
14	else.
15	LAUARA SNYDER: Didn't we say sometime ago
16	that we would allow this "or equivalent" because some
17	of the agencies could teach that in their CMEs but
18	not provide a card.
19	JIM HANSEN: Right.
20	LAUARA SNYDER: They'd have to become a
21	PEPP instructor and pay the fees to whoever the PEPP
22	is to get their cards to give to the people. And for
23	big agencies, they may want to just use their
24	instructors to teach the same content but not get a
25	PEPP card.

1	JEAN LUNDQUIST: Okay.
2	LAUARA SNYDER: That's the "or
3	equivalent."
4	JIM HANSEN: Yeah.
5	GUY DANSIE: And that's what.
6	JIM HANSEN: In this case because it's
7	reciprocity, they would have to have some
8	documentation that we could accept as an equivalent.
9	DEAN YORK: Jim, like our department where
10	we'll certify 20 paramedics this year, we send a
11	letter saying they have completed all of these things
12	instead of sending individual BLS, ACLS. That's
13	still
14	JIM HANSEN: Yeah. And in fact, all we
15	really need is the training officer letter that says
16	that.
17	DEAN YORK: Okay.
18	JIM HANSEN: And then you have to have the
19	records so that if you're audited
20	DEAN YORK: Correct.
21	JIM HANSEN: then we're good with that.
22	GUY DANSIE: Okay. Are we good to move
23	down?
24	JIM HANSEN: Yeah.
25	GUY DANSIE: Okay. If we look under D, no

```
1
     change there. E, "submit documentation of having
 2
     successfully complete" -- I probably need to add a
 3
     "D" there, don't we?
                 JIM HANSEN: Yeah.
 4
 5
                 GUY DANSIE: "A national registry of
     emergency medical technician's written and practical
 6
 7
    EMR, EMT, AEMT or paramedics examinations..."
                 We scratched EMD because that's not part
 8
    of it. "...corresponding with the license the
9
     individual is seeking."
10
11
                 Make sense?
12
                 F says, "Submit a current license or
13
    certification from one of the states of the United
     States, its possessions or from a U.S. government
14
15
    agency." That's to allow the federal piece, right?
                 JIM HANSEN: Yeah, the federal piece.
16
17
    However, I'm wondering if there needs to be
18
    parentheses on that last little statement. If with
    the national registry -- yeah. How does that work?
19
20
                 Okay. From a government agency, if
21
     certified with the National Registry of the emergency
22
    medical technicians. So from the government agency
23
    they would need National Registry because we have no
24
    other.
25
                 GUY DANSIE: Okay. So we're okay with the
```

1	wording then?
2	JIM HANSEN: I'm just wondering because
3	then it says "and," on to G, if that needs to be in
4	parentheses because it's referring strictly to the
5	from the government, U.S. government agency.
6	JAY DEE DOWNS: From what I understand
7	too, that's the military. They only use the National
8	Registry.
9	JIM HANSEN: Yeah. And that's but that
10	means we would accept.
11	JAY DEE DOWNS: Correct.
12	JIM HANSEN: We have to accept state
13	license or certification. But from a government
14	agency we could only accept National Registry.
15	JAY DEE DOWNS: Yeah, I see what you're
16	saying.
17	GUY DANSIE: You want me to put
18	parentheses starting with the word, "if"?
19	JIM HANSEN: Yeah. And then before or
20	after the word "technicians."
21	GUY DANSIE: Okay.
22	JIM HANSEN: I don't know if it goes
23	inside or outside the semicolon. I think it goes
24	here.
25	GUY DANSIE: That's a Brittany question.

on't om
om
om
che
che
ere
ık we

```
1
                 GUY DANSIE: -- representatives, okay.
 2
    And then if we go down to 4.
 3
                 GAY BROGDON: Wouldn't it be a person's --
    an individual seeking reciprocity for certification
 4
     in Utah? Wouldn't that be "license"?
 5
                 GUY DANSIE: Well, we're not certifying in
 6
7
           We're going to be licensing. But the National
    Utah.
    Academy certifies their people that they've been
8
9
    trained.
10
                 GAY BROGDON: But if they're seeking
11
     license in Utah, it's based on the certification.
12
     shouldn't that say "licensed" here?
13
                 GUY DANSIE: Yeah, right here? On part 3?
14
                 GAY BROGDON: Right below it.
15
                 GUY DANSIE: That word actually we need to
16
     change.
                 GAY BROGDON: But then further in the
17
18
    sentence it says, "An individual seeking reciprocity
19
    or certification in Utah."
20
                 GUY DANSIE: Right. We need to change the
21
    word "certification" there. I'm just catching up to
22
    you, Gay. Okay. We'll change those to "license."
23
    And --
24
                 JIM HANSEN: Actually go down. You
25
    deleted it there.
```

```
1
                 GUY DANSIE:
                              Yeah, you're right. Thanks,
 2
    Jim. Okay. So just like that. Whoops.
 3
                 "Equivalent certification," all right.
    I'll go through all of this. This is all pertaining
 4
 5
    to EMD.
                 JIM HANSEN: "Certification will be
 6
7
     equivalent to Utah," just above your cursor.
                 GUY DANSIE: Yeah, that needs to be
8
9
     "licensed" there.
10
                 JIM HANSEN: Yeah.
11
                 DON MARRELLI: Guys, this is Don Marrelli.
12
                 GUY DANSIE: Okay, Don. Go ahead.
13
                 DON MARRELLI: I have a budget hearing I
    have to get to. So I'm going to be off the phone.
14
15
    So I can't help do anything.
                 GUY DANSIE: Okay. And this is going to
16
17
    be something we're going to have to carryover into
18
    the next meeting at the end of March. So if that
19
    date works for you. Does it work for everybody else?
20
    Maybe we can just talk about that really quickly.
21
    And we'll bring this back. I'm going to try to get
22
    some dispatch language thrown in it and get with
23
    them. And then we'll bring it back to this group at
    the end of March, on the 29th.
24
25
                 DON MARRELLI: Okay.
```

1	GUY DANSIE: That's our plan for now,
2	okay?
3	DON MARRELLI: Sounds good.
4	GUY DANSIE: Thanks, Don.
5	DON MARRELLI: Thanks.
6	GUY DANSIE: So down to part 4 and 5, you
7	struck all of that out.
8	JIM HANSEN: Yeah. That was Jamie
9	Rossborough on that.
10	GUY DANSIE: Okay. So it's no longer
11	needed.
12	JIM HANSEN: Okay, 900. Whoops, correct?
13	Okay. So you added the "less than one
14	year."
15	"Whose licensed has expired for less than
16	one year may within one year after expiration
17	complete all the recertification."
18	GAY BROGDON: That should be "license."
19	JIM HANSEN: That's not been added.
20	JEAN LUNDQUIST: Well, on there you said
21	that
22	GUY DANSIE: If it lapsed you were kind
23	of
24	JEAN LUNDQUIST: You had EMD in there, but
25	you changed it to license. You said EMD is going to

1	be certified.
2	GUY DANSIE: No, no, no.
3	JEAN LUNDQUIST: They're going to be
4	licensed as well?
5	GUY DANSIE: They're going to be licensed
6	as well. They're certified in their system they use,
7	but they're licensed by us.
8	JIM HANSEN: Much like these guys can be
9	certified as National Registry.
10	GUY DANSIE: Yeah.
11	JIM HANSEN: But they're licensed in Utah.
12	GUY DANSIE: Okay. So what's the one
13	you're thinking about? What's the one you were
14	JIM HANSEN: That was a comment that I
15	disagree with, that we should go to two years since
16	that's what national registry does. But, no, this
17	is these are Paul's words.
18	GUY DANSIE: These are what Paul wants?
19	JIM HANSEN: This is what Paul insisted
20	on.
21	The real thing is here it's saying if they
22	expire for less than one year, then they have to take
23	the written test. If they expire for more than one
24	year, then there's a they have to come back in
25	almost as if they had taken a course but not

1	actually. Much like the challenge of the nurses.
2	GUY DANSIE: So it's a mercy paramedic
3	thing; is that what you're saying?
4	JIM HANSEN: Well, paramedics because of
5	their thing, they've always been able to come back in
6	because they spent so much time and money to become a
7	paramedic. But EMTs and AEMTS and stuff finally when
8	we got into the rules this last time was like, well,
9	why do they get special privilege? Why can't we come
10	back after three, four or five or 10 years or 20
11	years after. So that's what that was about. If it's
12	more than two years they have to come back in as if
13	they
14	GUY DANSIE: Had never done it.
15	JIM HANSEN: Well, as if they had taken
16	the course but they'd never finished the course. So
17	they'd have to test and
18	JEAN LUNDQUIST: Test out.
19	JIM HANSEN: The course coordinator and
20	all of that stuff, yeah.
21	GAY BROGDON: Shouldn't that one sentence
22	say "within one year after expiration, complete all
23	licensing requirements"?
24	GUY DANSIE: Yeah.
25	GAY BROGDON: "Pay a late lapsed fee,"

1	What would you say, a license fee? What do you want?
2	It's got "recertification."
3	JIM HANSEN: Yeah, you're right.
4	JEAN LUNDQUIST: So
5	JIM HANSEN: Go ahead and type
6	DEAN YORK: So
7	JEAN LUNDQUIST: You don't want them to do
8	a practical, just a written?
9	GAY BROGDON: After two years After a
10	full year, they have to do both.
11	JIM HANSEN: Strike out "recertification."
12	Just strike that out completely. It can be just a
13	late fee.
14	GUY DANSIE: Okay. You've got to go.
15	LAUARA SNYDER: Yeah, I've got to go.
16	(Side discussion.)
17	JIM HANSEN: Good luck, Lauara.
18	TERESA BRUNT: So you're okay to walk away
19	from your registry where it said one year. It just
20	used to be kept with the National Registry and now
21	you're not?
22	JIM HANSEN: No, we never have.
23	TERESA BRUNT: Back to what you've taken
24	out, you've taken out a bunch of stuff referring
25	back. That's going to be gone. So I guess that's

```
1
     just my question if you're not keeping to the
 2
     two-year standards of National.
 3
                 JIM HANSEN: No. Because actually what
    that comment was out of -- out of whack because
 4
 5
    National Registry -- National Registry will -- does
    have a two-year thing. But like I say if you expire
 6
 7
    for -- even with National Registry if you expire you
    have to retest to get back into the system.
8
                 TERESA BRUNT: Okay. So it didn't go
9
10
    away?
11
                 JIM HANSEN: It didn't change that.
12
    don't know what that comment was even about.
13
    wasn't mine.
14
                 TERESA BRUNT:
                                Okay.
15
                 GUY DANSIE: Okay. So are we good with
    the language then?
16
17
                                     If you fixed what Gay
                 JIM HANSEN: Yeah.
18
    said.
19
                 GUY DANSIE:
                              I tried. I think I did.
20
                 JIM HANSEN:
                              Yeah.
21
                 GUY DANSIE:
                              Okay. So we get down to 2A,
22
    and we just changed a term. 2B says, "approved
23
    National Registry of Emergency Medical Technicians,"
    and that's to be consistent with the other language,
24
25
    right?
```

1	JIM HANSEN: Yes.
2	GUY DANSIE: So we left that language
3	there.
4	C is just license renewal. Changed it
5	from recertification. The same with D. Got that
6	rolling "R" there.
7	"Lapsed license renewal process."
8	Okay. Section R425-5-1000, this is all
9	about transitioning. And it's no longer applicable
10	because we have transition.
11	JIM HANSEN: Deadlines have all been met.
12	GUY DANSIE: We're just going to strike it
13	out of the rule.
14	JIM HANSEN: Strike it out of the system.
15	GUY DANSIE: Yeah. It's all come and gone
16	and passed. So if we look down to 11000. We just
17	have one place to change, "certification." I'll go
18	back through and do a word search on certification to
19	make sure we didn't miss any of these, and then we'll
20	bring it back. We'll clean it up and bring it back
21	and try to renumber it for our next meeting.
22	Okay. Here's one that I need help with.
23	As we get into medical directors and EMS instructors,
24	I think what we wanted is to still call them
25	certified.

1	JIM HANSEN: Just want to certify that.
2	GUY DANSIE: And we're just saying that
3	they have this licensing from us. Not a license to
4	go out and do some stuff, but we're just licensing
5	them and keep the word "certified"
6	JIM HANSEN: Uh-huh (affirmative).
7	GUY DANSIE: to be a course coordinator
8	or instructor or a medical director, right?
9	JIM HANSEN: Right.
10	GUY DANSIE: Okay. So we still have
11	instructor certification. I'm sure that's what
12	you're talking there.
13	JIM HANSEN: Right.
14	GUY DANSIE: Because it's not a licensed
15	level in the National Registry or anything else.
16	JIM HANSEN: Right.
17	GUY DANSIE: Okay. If we go down into
18	that section, you added a part 5, "Submit biannually
19	a completed and signed EMS instructor contract."
20	JEAN LUNDQUIST: Where are you reading
21	that?
22	GUY DANSIE: This is 1300, instructor
23	certification. Yeah, I'm sorry, I'm jumping ahead.
24	JEAN LUNDQUIST: What is that word,
25	"submitted biannually"?

1	GUY DANSIE: I think he means every two
2	years. So every two years?
3	JIM HANSEN: It's spelled
4	JAY DEE DOWNS: B-i-a, not
5	B-i-e-n-n-i-a-l-l-y.
6	JEAN LUNDQUIST: B-i-a, not "biennially."
7	GUY DANSIE: We don't want it twice a
8	year. We want it once every two years, right? I'll
9	check the spelling and make sure we're good there.
10	Brittany won't let us get past that one.
11	JIM HANSEN: Just say every two years.
12	GUY DANSIE: We'll do the same there,
13	maybe, okay.
14	If we go down through 1400, he actually
15	said the same thing. So you need to submit every two
16	years for recertification, a completed and signed
17	instructor contract.
18	1500, lapsed certification instructor
19	lapsed certification. You just added that last part
20	in part 2. It says, "However, the department may
21	waive portions of the initial EMS instructor training
22	course."
23	JIM HANSEN: Yeah. And that's basically
24	if they've already taken an instructor course, we do
25	provide a one day from fire instructor to EMS

1	instructor course. And if they've already taken the
2	full course, we can let them just take the shortened
3	course. So that's what that's about.
4	GUY DANSIE: Cut them a little slack.
5	JIM HANSEN: Cut them a little slack.
6	GUY DANSIE: Okay. Training officer
7	certification, still leaving the term "certified" in
8	here, right?
9	DEAN YORK: Right.
10	GUY DANSIE: Two-year period.
11	Training officer certification, 1700. It
12	looks like no changes there.
13	1800 no changes.
14	GAY BROGDON: I have a problem with it.
15	GUY DANSIE: You do?
16	GAY BROGDON: I do.
17	GUY DANSIE: Where is it?
18	GAY BROGDON: The sentence says, "The
19	individual's new expiration date will be two years
20	from the old expiration date." So they've expired
21	for two years and they take the class, they are
22	already expired. The date would be at expiration.
23	Right?
24	JIM HANSEN: Well, then word it right.
25	GAY BROGDON: So if they now expired

1	again, then they have to turn around and
2	JEAN LUNDQUIST: Two years from the
3	passing date or whatever what number are you on?
4	GAY BROGDON: 1800. So they've lapsed for
5	two years. So it's telling them that they can
6	recertify but their date goes from two years from
7	that date, so that they would still be lapsed.
8	GUY DANSIE: Should we strike that last
9	sentence?
10	GAY BROGDON: Is that right? Am I
11	thinking wrong?
12	JEAN LUNDQUIST: Individual's new
13	expiration date will be two years from that
14	LAUARA SNYDER: We're talking about these
15	people who already expired for two years.
16	JEAN LUNDQUIST: They have to become
17	certified by reinstating the recertification
18	requirements. The certification will last for two
19	years or something like that.
20	GUY DANSIE: It will be for two years.
21	JIM HANSEN: Wordsmith it.
22	GUY DANSIE: How about we put for two
23	years, and then strike the "old expiration date"
24	part.
25	If I can get my cursor to go where it's

1	supposed to.		
2	How is that? "The individual's new		
3	expiration date will be for two years." Will that		
4	work? Because it should be from whenever it starts		
5	again, right?		
6	GAY BROGDON: Right.		
7	GUY DANSIE: Right. I don't think the old		
8	part should be on there.		
9	Are you ready to go down to 1900, course		
10	coordinator. Nothing has changed there. Kind of the		
11	same thing.		
12	Now down to part 3, it looks like we		
13	changed a little bit. "Course coordinator may only		
14	coordinate courses up to the" do we need to put		
15	"license" in there?		
16	GAY BROGDON: Yes. Because it's if		
17	they're a paramedic, they can teach a paramedic.		
18	JEAN LUNDQUIST: It's not are they a		
19	licensed course coordinator?		
20	GAY BROGDON: No. They're a certified		
21	course coordinator, but they're		
22	GUY DANSIE: But they're licensed as a		
23	paramedic.		
24	GAY BROGDON: Their level is their		
25	license, the paramedic or EMT.		

1	JIM HANSEN: Scratch out "certification."			
2	GUY DANSIE: I actually agree, I think the			
3	way it's worded now looks good.			
4	JEAN LUNDQUIST: Yeah.			
5	GUY DANSIE: Okay.			
6	GAY BROGDON: You've got the same wording			
7	going on in the lapsed one, 2100.			
8	GUY DANSIE: 2100, okay. Looking down			
9	through, changed the word "license." Take			
10	"certification" out, put "license" in again.			
11	2000, we changed "EMD" to "license," on			
12	1A.			
13	2100, is this where we're talking about?			
14	GAY BROGDON: Yeah, the last section and			
15	in the first section is the saying "two years from			
16	the old date."			
17	GUY DANSIE: Okay. "The individual's new			
18	expiration date will be for two years." Is that			
19	okay?			
20	GAY BROGDON: Yep.			
21	GUY DANSIE: Okay.			
22	JEAN LUNDQUIST: It says, "The			
23	individual's new expiration date will be two years			
24	from the recertification date."			
25	GAY BROGDON: So that one actually is			

1	written right.			
2	GUY DANSIE: That one is written			
3	correctly.			
4	GAY BROGDON: Yeah.			
5	JEAN LUNDQUIST: Two years from when they			
6	recertify, which is how the other one should read.			
7	GUY DANSIE: Okay, 2, it looks like we			
8	added language there. "However, the department may			
9	waive portions of the initial course coordinator			
10	direct requirements such as a" "co-coordinator,"			
11	right? A hyphen there I think.			
12	GAY BROGDON: Yeah.			
13	GUY DANSIE: "If the candidate has			
14	coordinated or co-coordinated a course within the			
15	past three years." Are you good with that?			
16	JEAN LUNDQUIST: What is that? Why is			
17	that?			
18	JIM HANSEN: Because they they're			
19	relatively current.			
20	TERESA BRUNT: Relatively.			
21	JIM HANSEN: So we wouldn't require them			
22	to retake the whole course.			
23	GUY DANSIE: Okay. So are we good to go			
24	down to 2200?			
25	JIM HANSEN: Yep.			

1	GAY BROGDON: Yep.
2	GUY DANSIE: It looks like in 1B there was
3	a strike out. It says, "The applicant has sufficient
4	equipment available for the training"
5	"Or if the equipment is available for
6	rental from the department," we're not doing that
7	anymore.
8	JIM HANSEN: Right.
9	GUY DANSIE: Part E says "The department,"
10	and we changed that to "course coordinator has the
11	capacity to offer the applicable examinations in a
12	timely manner after the conclusion of the course."
13	So we're not doing the exams anymore. The
14	course coordinator does those. Okay.
15	426-5-2300, Paramedic Training
16	Institutions Standards Compliance. So we've changed,
17	in part 1, changed the terminology again, from
18	"certification" to "licensing."
19	JEAN LUNDQUIST: Wait. "A person shall be
20	authorized by the department to provide training
21	leading to the licensing." Oh, okay, I was stuck on
22	training and leading. Okay.
23	JAY DEE DOWNS: It's been a long day.
24	GUY DANSIE: Yeah. Part 2B, we've added
25	"obtain a letter of review from the committee on

1	accreditation of educational programs for the EMS			
2	professions CAAHAP and then acquire and maintain the			
3	Commission of Accreditation of Allied Health			
4	Education Programs accreditation."			
5	So basically that falls in line with our			
6	National Registry. They want our training to be from			
7	credited institutions.			
8	JIM HANSEN: And the process is that a			
9	program that wants to start doing paramedics has to			
10	get this letter of review from CAAHAPs to to be			
11	able to do it. And the National Registry will accept			
12	graduates from a course that has that letter of			
13	review. And then after two or three programs and			
14	they've proven that they are capable of doing the			
15	courses, then they seek the actual accreditation.			
16	TERESA BRUNT: And I still go back to			
17	Brittany's recommendation on whether we spell that			
18	accreditation accrediting organization out. That			
19	acronym to me means nothing. I mean it does to you			
20	probably but			
21	GUY DANSIE: The CAAHAPs?			
22	TERESA BRUNT: If it's rule, do you not			
23	want to spell it out at least once so it's clear?			
24	GUY DANSIE: Oh, you're talking			
25	about the			

1	TERESA BRUNT: The CAAHAP. I mean it's	
2	familiar to you, but I'm just saying I don't know.	
3	JIM HANSEN: That is spelled out.	
4	GUY DANSIE: That's the commission, the	
5	CAAHAP, the Commission of Accredited	
6	TERESA BRUNT: Oh, it is spelled out.	
7	That's a long acronym.	
8	JEAN LUNDQUIST: Committee on	
9	Accreditation.	
10	TERESA BRUNT: Okay. I rest my case.	
11	GUY DANSIE: You have the right thing, but	
12	that's how it is in there.	
13	DEAN YORK: You verified it.	
14	JIM HANSEN: Yes. Thank you.	
15	GUY DANSIE: Validated by you.	
16	TERESA BRUNT: Thank you. I'm a nurse,	
17	not a paramedic.	
18	GUY DANSIE: Okay. 2400, Off-Line Medical	
19	Director Requirements. That's the certify thing	
20	again that we're still doing that for medical	
21	directors.	
22	JAY DEE DOWNS: That's sure a small	
23	paragraph.	
24	GUY DANSIE: 2500.	
25	GAY BROGDON: Background check.	

1	GUY DANSIE: This is a change. Medical			
2	directors actually have to do a background clearance.			
3	JIM HANSEN: As per 3100.			
4	GUY DANSIE: That 2700 needs to be deleted			
5	and changed to the new reference. I'll go back and			
6	make sure I get the right one. Okay. So no other			
7	changes for medical directors?			
8	And then we're done in the epinephrine			
9	auto-injector use, which is not other than looks			
10	like you've changed "licensed" in there. And then we			
11	just went through and changed the terms "certify" to			
12	"license" and "renewal" and "recertify."			
13	We probably need to go through the whole			
14	rest of that document and clean out the language. I			
15	don't think there was any substantive changes.			
16	JIM HANSEN: Substantive, is that the			
17	word?			
18	GUY DANSIE: Yes, important changes.			
19	JEAN LUNDQUIST: There sure are a lot of			
20	crosses out on there. Where are you at now?			
21	GUY DANSIE: And actually			
22	JIM HANSEN: The rest of it.			
23	GUY DANSIE: The rest of the document.			
24	Jim just went through and everywhere it said			
25	"certified," he changed it to "licensed."			

```
1
                              It's basically this document
                 JIM HANSEN:
 2
     here.
 3
                 GUY DANSIE:
                              Yeah. And all of this, this
     part was -- below the epinephrine use, 2700 down,
 4
     that's where we added the blood draw permits. So the
 5
     numbers will all change. We'll throw that blood draw
 6
7
     permit thing in there first, and then we'll do all of
 8
     these changes as a second step. So that's why I'm
 9
     not worried about -- we'll come back to this at our
     next meeting in March, and I'll do clean-up on it in
10
11
     the meantime.
12
                 JEAN LUNDQUIST: Okay.
13
                 GUY DANSIE: And then we'll go through it
14
     and we'll mark with the dispatchers to get their
     language correct. And then we'll come back to it for
15
16
     a final review before it goes to the committee, if
17
     that's okay with everybody.
18
                 JEAN LUNDOUIST: Okay.
                 JAY DEE DOWNS: I don't know, I have to
19
20
     think about it for a while. I'll let you know.
2.1
                 GUY DANSIE: I think that's it. Is there
22
     anything else? That's all we had, that Jim and I had
23
     for us. Any other discussion or are we good?
24
                 JIM HANSEN: Yeah, you're in charge.
                                                       Jay
25
     you're --
```

1	GUY DANSIE: Jay, you're conducting.
2	JAY DEE DOWNS: I was late. If that was
3	the case, we would have adjourned an hour ago.
4	JEAN LUNDQUIST: I second the motion.
5	GUY DANSIE: Does the date look okay for
6	everybody still?
7	JAY DEE DOWNS: Are we okay with the date?
8	GUY DANSIE: It's for the 29th. We were
9	going to meet quarterly, but I think we've decided to
10	stagger the month. If I remember it was some reason
11	there was a room issue or something.
12	GAY BROGDON: It was after the EMS
13	Committee Meeting so if there was anything we needed
14	to address. That's what I believe you told me.
15	GUY DANSIE: Okay. Yeah, I can't
16	remember.
17	JEAN LUNDQUIST: I still remember that,
18	too.
19	GUY DANSIE: We wanted to have it
20	JEAN LUNDQUIST: around that meeting,
21	either before or after.
22	GUY DANSIE: Prior to. That's what we
23	wanted to do is have it the month before the EMS
24	committee so it can go to the committee. We're going
25	to go short. We're going to go two months this time,

1	and then from here on out we'll still go quarterly.	
2	I think that's what we did, right?	
3	JAY DEE DOWNS: Yeah, we did. Because the	
4	next meeting is in April.	
5	GUY DANSIE: The committee meeting.	
6	JAY DEE DOWNS: Right. So we want to have	
7	it ready to go in April.	
8	GUY DANSIE: So we will meet in March,	
9	polish it up. And then we will have it ready for the	
10	committee in April. And then we'll try to do that	
11	every time after that, to have the meeting the month	
12	before the committee.	
13	JAY DEE DOWNS: Unless there's anything	
14	else more pressing that comes down through.	
15	JIM HANSEN: Right. Which is part of your	
16	bylaws.	
17	GUY DANSIE: I guess we're adjourned.	
18	JAY DEE DOWNS: If you want to stay here,	
19	you can.	
20	GUY DANSIE: We're good. Thanks everyone.	
21	(Concluded at 3:18 p.m.)
