Beginning in 2016

Beginning in June 2016, the Utah Driver License Division will begin issuing newly designed cards. The new cards will be phased in over the next five years and will replace the old style cards as they expire. The new cards comply with the American Association of Motor Vehicle Administrators (AAMVA) specifications.

Advantages of New Documents

These new documents incorporate enhanced security features. These features improve fraud prevention and protection from counterfeiting and/or alteration.

Exciting Change!

The Utah Driver License Division is continually seeking to protect the identities and personal information of our citizens. This redesign, with the enhanced security features it incorporates, is an important part of that effort. Some of the enhancements include:

- Laser Perforation
- Laser Engraved Ghost Image
- 1D and 2D Barcodes

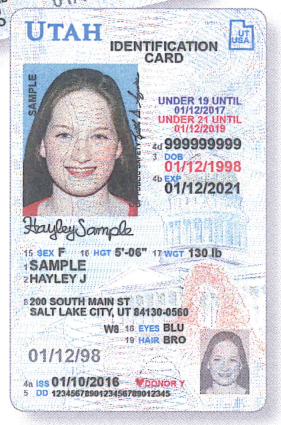
Adult Driver License

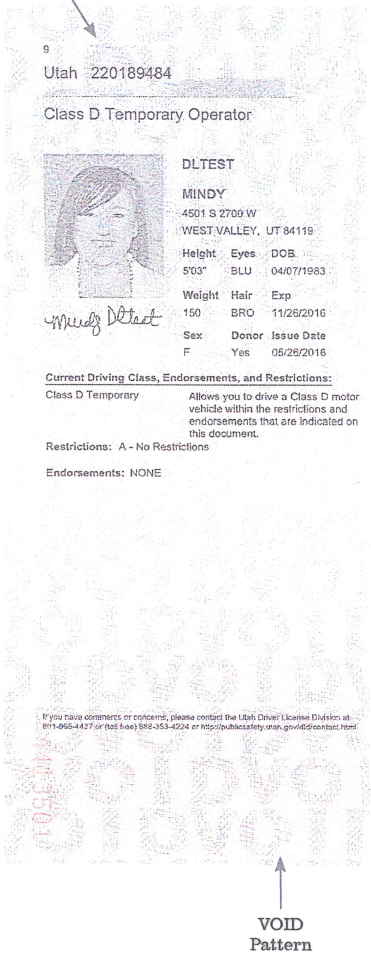


Minor Identification

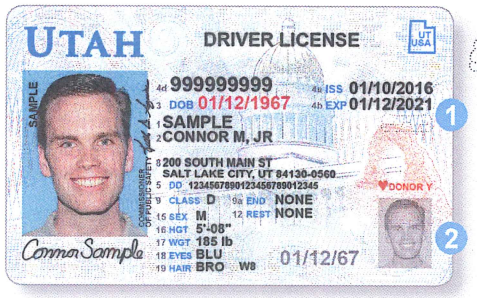
Temporary Document
(printed on security paper)

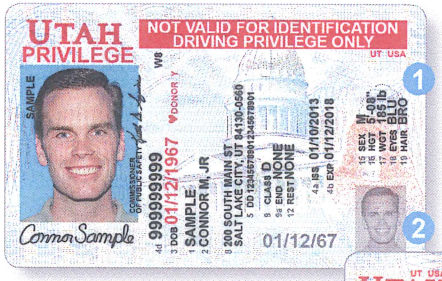
The temporary document contains the following features:

- Printed on security paper which will show "VOID" when copied
- The background features "Split Fountain" (gradual change from light blue (blue-gray) to yellow to light red)
- Delicate Arch is pictured at the top



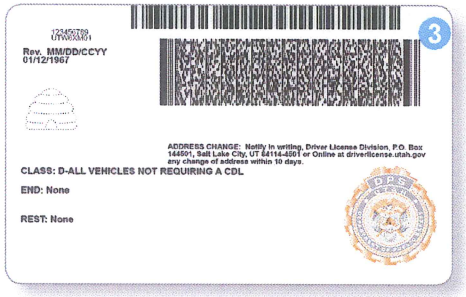
New look and enhanced security features

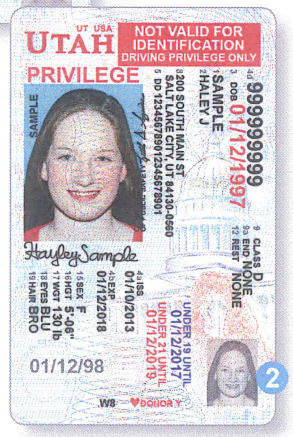




Displays NOT VALID FOR IDENTIFICATION

Demographic Text Orientation prints perpendicular to portrait





1. **Laser Perforation**
   The beehive is embedded into the card stock. It can be observed by holding the card up to any light source and does not require any other equipment to verify.
2. **Laser Engraved Ghost Image**
   The ghost image is applied via laser.
3. **Barcodes**
   The 1D and 2D Barcodes contain demographic data and identification numbers, unique to the cardholder.
