

The Utah Driver License Division will start issuing the Driver License and Identification Cards with the Real ID indicator (Gold Star) starting February 3, 2019. The Division will be sending a replacement license or identification card, free of charge, to those who will expire **after** the October 2020 compliance deadline.

To qualify for the free replacement License/Identification Card:

- License status must be valid.
- Current address must be on file.

There will be certain circumstances where a free replacement will not be granted.

- Commercial drivers with an address change will be required to appear in an office and apply for a duplicate/renewal.
- Any name change, endorsements, or any other changes required on the card will be required to appear in an office and apply for a duplicate/renewal.

Note: If your License/Identification Card expires January 2019 through October 2020 you will receive the updated License/Identification card as you renew through the established process.
