

City of Fruit Heights

Conditions are shaping up for another hot and dry summer season. City leaders in Fruit Heights are asking residents to be careful this year along the foothills and east bench in Fruit Heights. Firework restrictions and open fire restrictions have been placed on all areas east of Mountain Road and the Nicholls Park/Bair Creek Hollow areas.

Residents are urged to contact the Davis County Sheriff Department and report any open fires or firework activity in the restricted areas.

Residents who reside in the restricted areas of the City are welcome to use Harvey Park, which is located around the City Office Building. We ask that all fireworks be properly cleaned up after your event and that only State of Utah approved fireworks be used for your celebrations.
