

## **FIREWORKS / FIRE RESTRICTIONS IN PLACE**

By order of the Riverdale City Council and Fire Department, fireworks restrictions are now in place in high fire risk areas within the city. The areas include all land east of the Weber River on the south end of the city and extending north to include all areas east of 700 West to the River Glen subdivision. The restrictions include the east bench area of the city extending from the south border north to the 300 West and Riverdale Road intersection. An area along the southwest bench is also included in the fireworks restrictions. A map of the restricted area can be viewed on the city website, [www.riverdalecity.com](http://www.riverdalecity.com).

In addition to the fireworks restriction there will be no open fires, no open flames, and no cigarettes allowed along the Weber River corridor. The restrictions have been put in place due to high fire danger in these areas.

Riverdale City has experience three fires already this summer along the Weber River corridor. The largest of which burned for a half mile stretch along the Weber River trail on the north end of the city. The fire also burned a section of a trail bridge and has forced the closure of the trail through the area. The section of trail will remain closed until the bridge can be repaired.
