

# Buffalo Point Hike

You will be guided through one of the island's most popular hikes. Along the way you will learn about Antelope Island ecology or geology, and get to know some of the islands most iconic species. The hike is approximately 1 mile total with 250 ft. elevation gain. Once you arrive at the top you will see fantastic views of the lake and surrounding valleys. The observation deck at the trailhead is a great location to eat lunch and take in the views.
