

Annual Report 2019

Photo Credit: Lacey McFarland

Directors Message

In recent weeks, we've all become more reliant on technology, meeting over the internet and connecting with family, friends and coworkers – for their own safety and ours – while we all deal with the COVID-19 pandemic.

Technology also played an important role in many of the milestones the Weber-Morgan Health Department made in 2019. Our Community Health Assessment moved online and updates instantly as national and local data comes available. On average, nearly 200 residents each month use our new online restaurant inspection site. The large database of our emissions program demonstrates that our regulations are helping keep tampered and polluting vehicles off our roads.

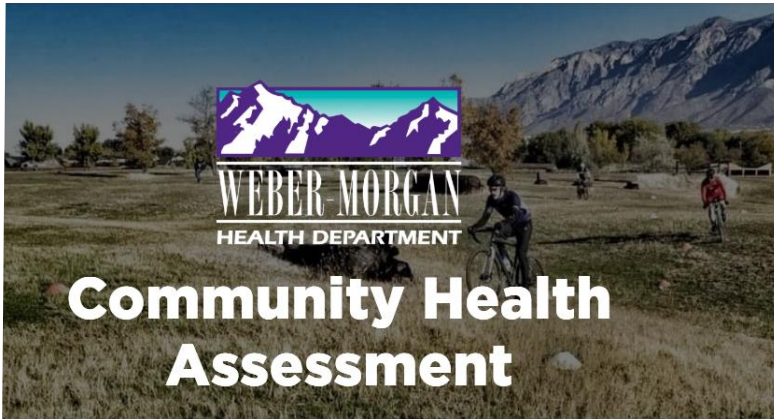

With COVID-19 consuming most of our public health conversations these days, it's a pleasure to take a moment and revisit these highlights. Thank you to our wonderful staff who are dedicated to keeping our community safe, everyday not just when the glare of a public health crisis is shining on us.

Board of Health Members

Neil Garner	Board Chairman Ogden City Representative
Dr. Frank Brown	Board Vice Chair, MD, Weber Medical Society
Gage Froerer	Weber County Commissioner
Roland Haslam	Morgan County City Council
Tina Kelly	Morgan County Representative
Leonard Call	WACOG Representative

Kevin Eastman	Weber Human Services
Ali Martinez	Midtown Community Health Center
Cole Brinkerhoff	Local Business, Smith's Pharmacy
Donna Chapman	Intermountain Health Care
Jer Bates	Ogden City School District
Jennifer Bodine	Local Environmental & Sustainability

Online Health Assessment

Health Begins in Our Communities.

Weber-Morgan Health Department (WMHD) has the proud distinction of serving Weber County and Morgan County residents to create the greatest possible opportunity for health for all of our residents. From downtown Ogden to the pristine trails and ranges of Powder Mountain, we serve a wide range of neighborhoods and communities, all with unique opportunities and challenges to health. This Community Health Assessment provides key data and information about those challenges and opportunities.

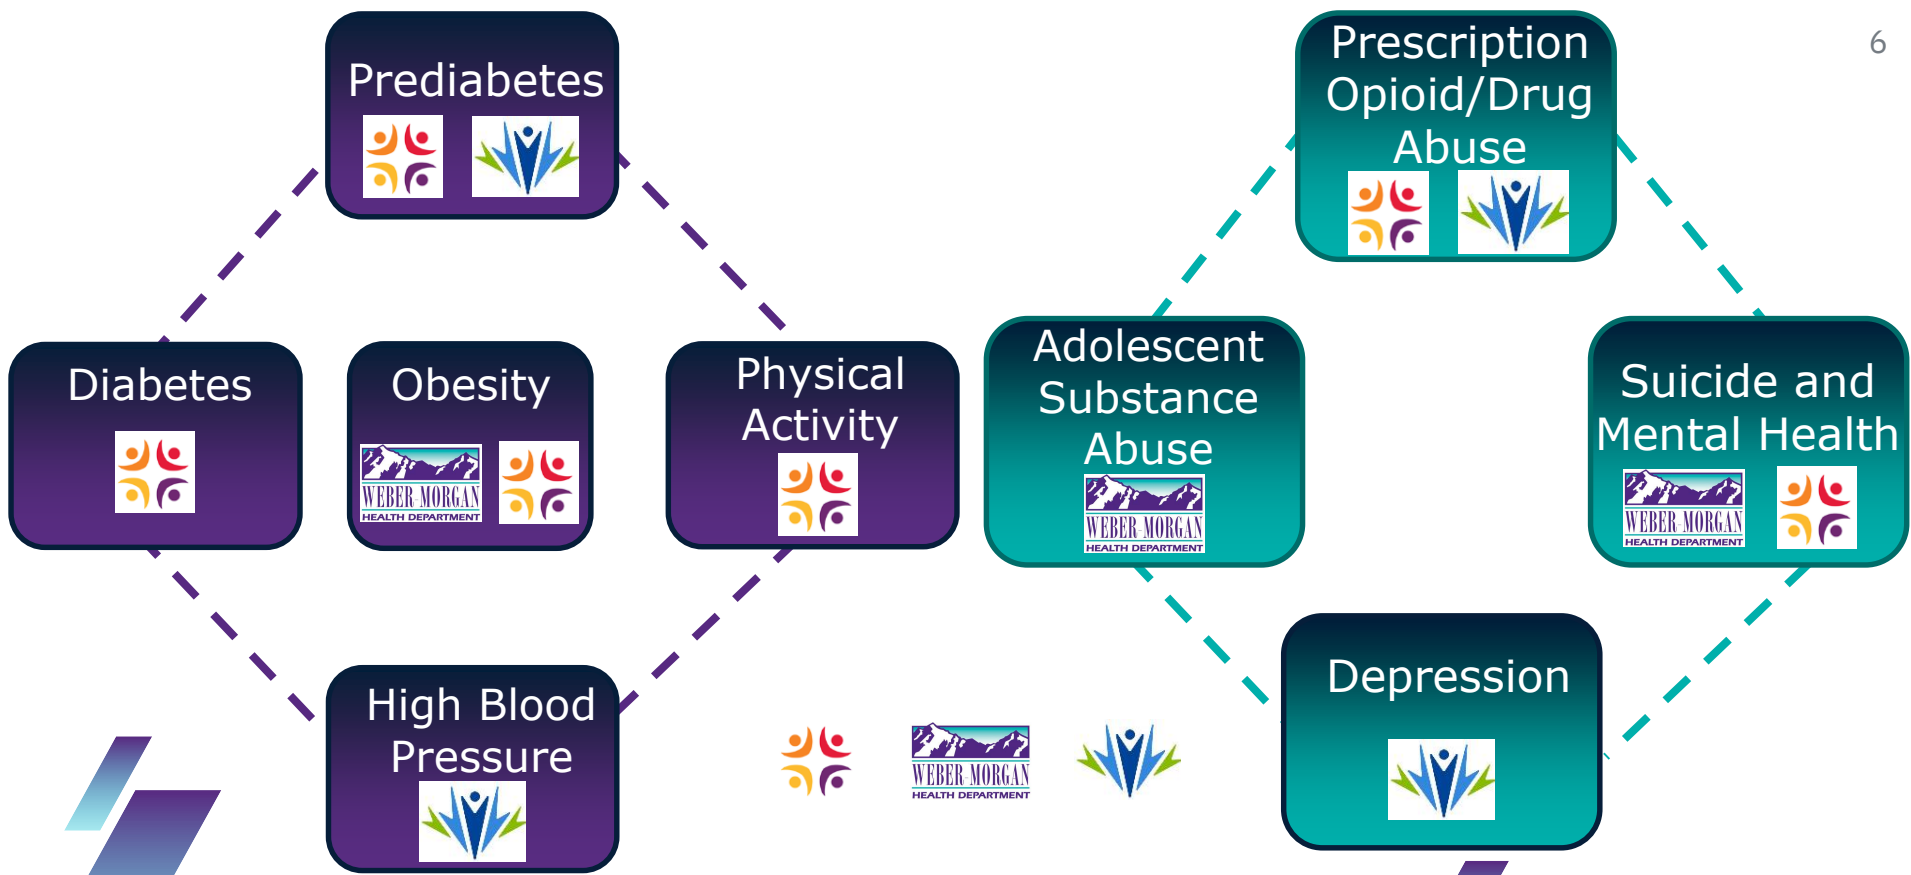

- The platform we use is called mySidewalk©
- The data is public information that we already use. This platform puts the data in one centrally located site that is automatically updated.
- The data is organized so that it tells a story rather than just numbers.
 - Environmental and Social Context
 - Behavioral Factors
 - Health Outcomes

- YMCA of Northern Utah
- Midtown Community Health Center

Aligning Community Health Priorities

The image features a dark blue background with a central horizontal purple band. The text "2019 Highlights" is centered in white serif font within this band. The purple band is flanked by several overlapping, slanted rectangular shapes in shades of purple, blue, and teal, creating a dynamic, layered effect.

2019 Highlights

Environmental Health

- Dogs on the Patio
- Online Restaurant Inspections
- Vehicle Replacement and Repair Assistance Program

Dogs On The Patio

- Restaurants approached the Weber-Morgan Board of Health and requested a variance to Food Service Sanitation to allow dogs to be on the patio at restaurants. At the time, the rule did not allow for dogs other than service or police dogs on the premises of a restaurant.
- Requirements included; submitting a canine hazard plan, signage, distances between dogs and doorways and entrances, sanitation requirements, etc. Visit the [website](#) for a full list of requirements.

Dogs On The Patio

- Benefits community by providing a way for those traveling or out on walks with their dogs to stop at restaurants knowing there are guidelines for safety and sanitation.
- Weber-Morgan Environmental Health staff are working with two restaurants to approve dogs on the patio.

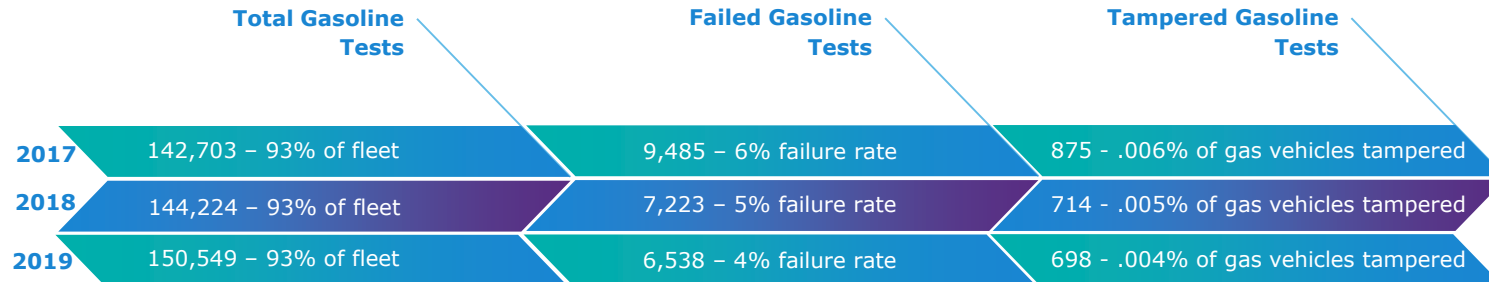

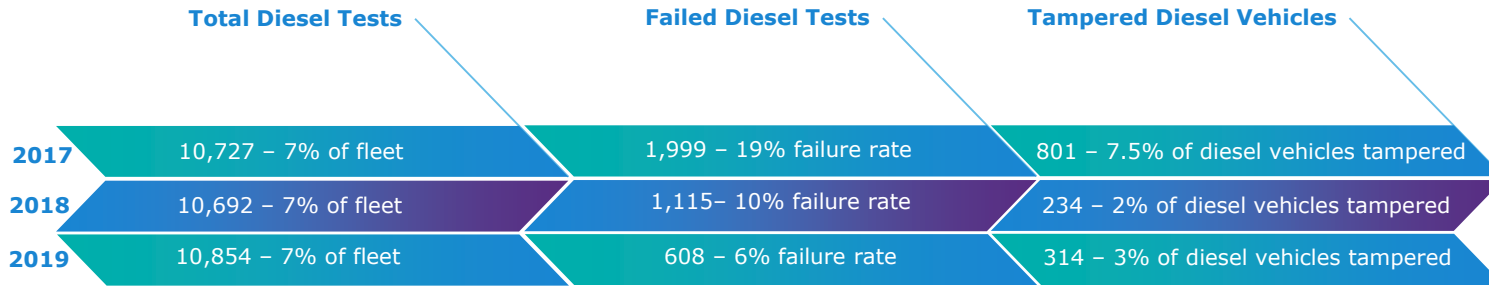

VRRAP Vehicle Replacement and Repair Program

- The Environmental Protection Agency (EPA) awarded Weber-Morgan Health Department a grant to provide financial assistance to low-income vehicle owners that fail an emission test. Those who qualify are offered financial assistance to repair the vehicle or replace it or replace it with a newer, cleaner vehicle.
- For more information see the VRRAP [website](#)

Diesel and Gasoline Emission Testing In Weber County

Online Restaurant Inspections

- Environmental health restaurant inspections are now conducted through an online company. Once the inspection is complete, the program displays the violation on the Weber-Morgan Health Department website in real time. And shows the date, type of inspection, and any violations that were observed.
- Any person can now search any restaurant in the system for violations and explanations of the violation. It also shows any complaints or follow-up that was conducted.
- This [online tool](#) allows community members access to local food safety information

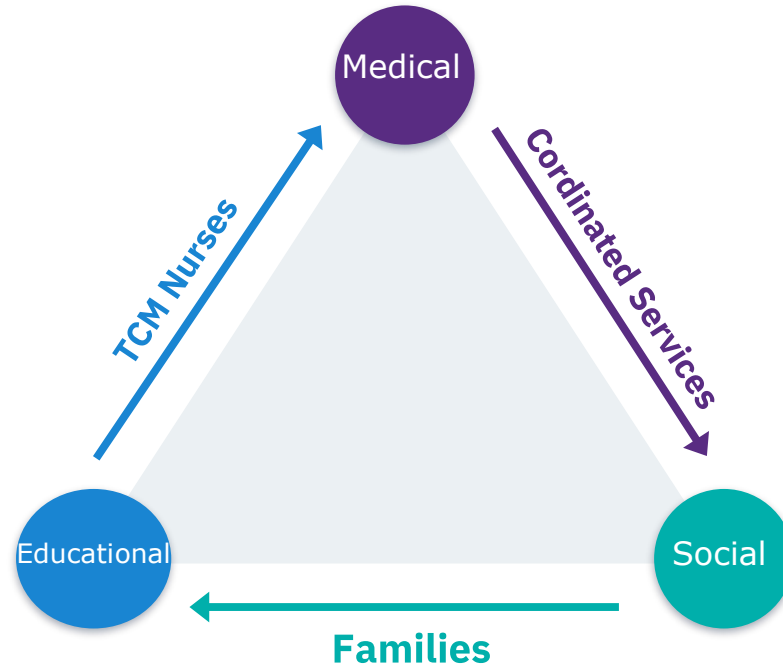

Nursing

- Targeted Case Management (TCM)
- Immunization Regulation
- Top reported diseases 2019
- 5 year trends of top reported diseases

Targeted Case Management

- TCM is a service that assists Medicaid recipients in the target group to gain access to needed medical, social, education, and other services. The overall goal of the services is to help Medicaid recipients access resources and ensure coordination among all agencies and providers involved.

Targeted Case Management

- Target Group: Families with children 0-4 years of age
- 3.5 full time nurses do home visits to families to assess needs, make referrals, screen for maternal depression, and ensure children are meeting developmental milestones.
- In 2019, WMHD TCM made 1043 home visits, more than any previous year.

Immunization Record Regulation

- The purpose of the Immunization Record Requirement for School and Early Childhood Employees' is to protect both staff and students in public, private, or parochial schools within Weber and Morgan Counties from preventable diseases and to promote public health, safety, and welfare of residents by establishing practices and provisions that prevent the spread of communicable diseases.
- The regulation requires students, teachers, office staff, and janitors of schools and daycares to produce a record of immunization.

Top Reported Diseases 2019

Disease	Reported for Investigation	Probable or Confirmed Cases
Chlamydia Trachomatis Infection	1033	1030

Emergency Services

■ “BeRAD” Challenge

- “BeRAD” - Be Ready Against Disasters” is an employee portal that allows staff to access emergency preparedness training with just a few clicks.
- BeRAD simplifies and expedites the training process to ensure all staff are prepared for a variety of emergencies such as active shooters, AED use, evacuation
- All WMHD staff are required sign up for UNIS, FEMA, and Utah Train.

WIC

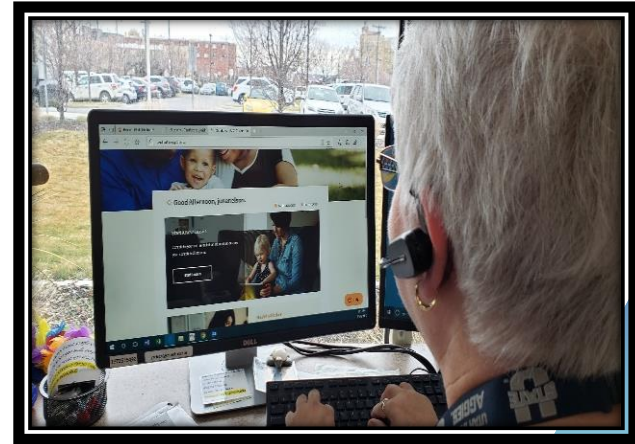

Diaper Drive

- Through a donations from Little Lambs Foundation for Kids, Weber-Morgan WIC was able to provide 4,400 diapers to families in need.
- WIC was also able to host a pop-up diaper bank on 9/4/19.
 - 1160 diapers and 33 hygiene kits were distributed in 2 hours

Online Nutrition Classes

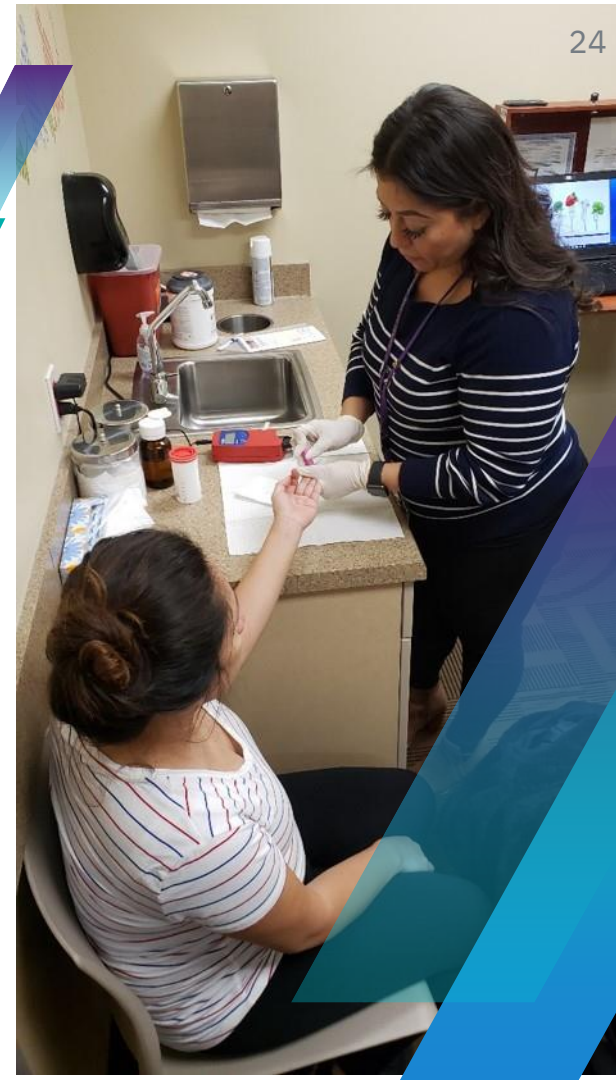

- Weber-Morgan WIC started offering the option of completing nutrition classes online.
 - This options allows families to complete their required nutrition education on their own time and attend a short appointment to pick up checks.
 - Currently, half of participants choose to take the classes online.
 - Over 2,000 online lessons were completed in 2019

Hemoglobin Levels Among Pregnant WIC Participants

2019 Goal: Reduce the number of pregnant women with low hemoglobin levels.

- Activities:
 - Dieticians provided education and handouts on iron at all pregnancy certification appointments.
 - Education and encouragement to take daily prenatal vitamin.
 - Follow-up appointments for all women with low hemoglobin levels.
- Results
 - In August 2018, 8.36% of pregnant Weber-Morgan WIC participants tested with low hemoglobin.
 - In September 2019, 4.92% of pregnant Weber-Morgan WIC participants tested with low hemoglobin

Health Promotion

- Teen Health Program
- Ogden CAN Naloxone
- Community Conversation About Opioids

Teen Outreach Program – Teen Health

■ Teen Outreach Program (TOP) is a program designed to empower teens from disadvantaged circumstances to lead successful lives and build strong communities

Increased

- Emotion management
- Goal setting
- Problem solving
- Positive adult relationships
- Sense of purpose
- School and community engagement

Decreased

- Sexual risk taking
- Teen pregnancy
- Course failure
- School suspension
- School delinquency
- Substance use

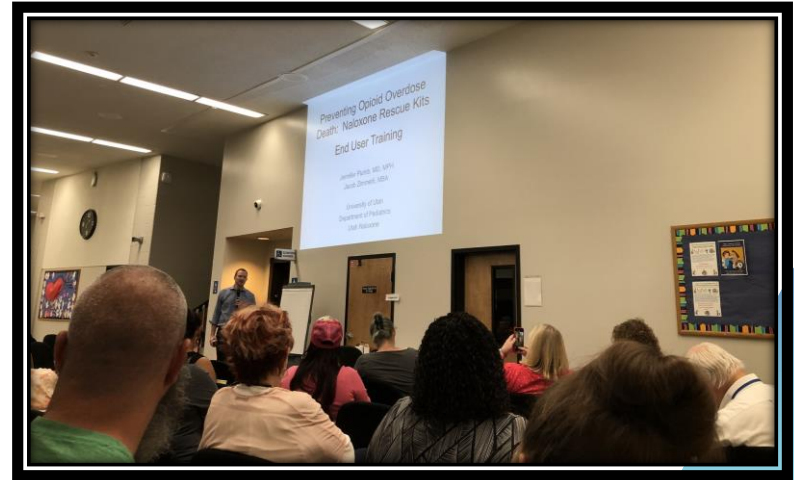

Teen Health Program – Teen Health

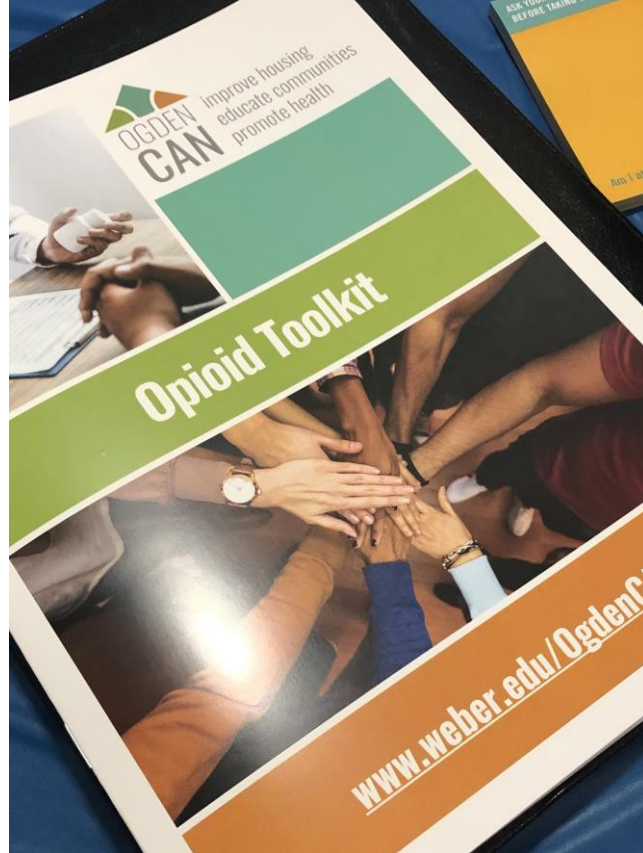

- During the 2019-2020 school year;
 - TOP reached 117 youth
 - TOP youth completed 696.5 community service hours.

Ogden CAN - Naloxone

- Health Promotion partnered with stakeholders to provide multiple naloxone trainings, these trainings helped community members learn to effectively use and administer a life-saving opioid overdose intervention.
- 225 community members were educated about the danger of misusing/abusing opioids and how to use naloxone if it is needed.

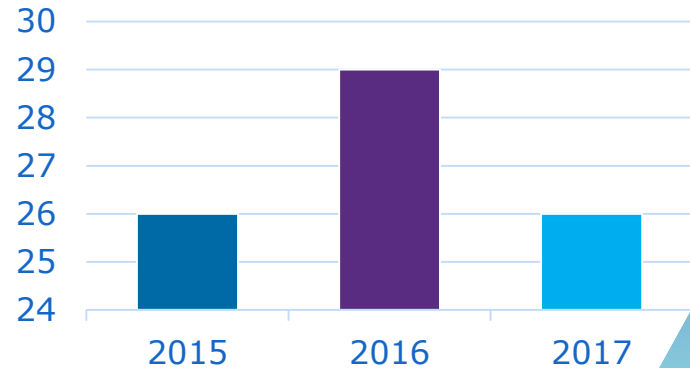

Community Conversation

Community Conversation

- Convened community members to discuss ways we can better equip ourselves to address opioid misuse/abuse in Weber county. Gathered feedback to inform action plans for the future.
- Began local dialogue about the growing epidemic of opioid misuse/abuse as well as how it can affect youth substance misuse/abuse.
